WOODSTOCK DISTRICT METHODIST MEETING

Pass Unanimous Resolutions Favoring Church Union and Against the "No Temere" Decree.

The Woodstock district of the Methodist church met in annual session at Debevoise Junction on Tuesday and Wednesday last, under the chairmanship of the Rev. R. W. Weddell. This district extends from Grand Falls and Plaster Rock to Canterbury, including nine circuits with ten members.

Satisfactory reports of the year's work were rendered from all these charges. Rev. George Ayers, of Jacksonville, was elected in company with the chairman, to represent the district on the stationing committee at the approaching conference to be held in St. John during the present week.

The district pronounced itself in an emphatic manner upon the questions of church union and the sacredness of the marriage tie by the following resolutions carried unanimously:

"Resolved, that we the members of the Woodstock district of the Methodist church have been greatly interested in the inception and progress so far made towards the union of the Presbyterian, Congregational and Methodist churches of this Dominion, and believe that the movement has been inspired by the Spirit of God and that it will greatly tend towards the advancement of the Redeemer's Kingdom, and for the moral and spiritual uplifting of this great country. We therefore would express our hearty approval of the union and hope for its early consummation.

"Resolved, that inasmuch as certain proceedings have taken place within this Dominion in regard to the annulment of the sacred obligations involved in the marriage contract, thereby threatening the home life of our nation, and inasmuch as the enforcement of the 'No Temere' decree must necessarily prove detrimental and destructive to the national life, wrecking homes, causing separations and imposing the awful burden of disgrace upon innocent women and children, we the members of the Woodstock district, gathered in annual session, most emphatically utter our protest against the annulment of the marriage tie in this Dominion and call for its immediate withdrawal and furthermore ask for legislation enactment to grant a uniform marriage law for use in the entire Dominion."

"Resolved, that we the members of the Woodstock district, gathered in annual session, do hereby express our approval of the union and hope for its early consummation. We therefore would express our hearty approval of the union and hope for its early consummation. We therefore would express our hearty approval of the union and hope for its early consummation.

The Sackville Post says: A lady in Golden (B. C.), writing a friend in Sackville, says workmen are very plentiful all through British Columbia. In Vancouver there are hundreds not able to obtain work so many are crowding in from England, Scotland and the maritime provinces.

Rev. H. S. Magee, the Methodist minister whose body was found hanging to a tree at the Gleason health resort near Toronto, was well known here. He preached in Centenary church about six months ago and had held many important offices in connection with denominational work.

The Telegraph has received from Col. H. H. McLean a copy of the passenger list of the Empress of Ireland which sailed from Quebec to Liverpool on June 2, carrying the Canadian and Bermudian contingents of the coronation. The list is very tastefully printed in a beautifully embossed cover on which are the royal arms. A sketch of the coronation service to be held at Westminster Abbey is included. Col. McLean, who has now no office commanding the Canadian contingent.

Harry P. Robinson, Luella Dunn, William H. White, Harry A. Pribble and Stephen B. Boyd, of the Reformed Baptist Association, are in the city seeking incorporation as Fishermen, Limited, with a capital of \$20,000, and an office in Lancaster. The company are seeking to acquire rights to carry on business as dealers in Bibles, magazines, pictures, and in practically all other lines of goods, including that of warehousemen, plumbers, metal merchants, cement manufacturers, and timber merchants, to say nothing of the right to acquire water powers and water privileges, with the right to generate electricity, build docks, elevators and warehouses, and operate ships.

Constable Robert Crawford having ascertained the report of the proceedings of the meeting of the common council of St. John, held on the 10th inst., in which it is stated that a communication from Henry W. Robertson complained that he, Robert Crawford, had not been settled for money collected some months ago, he now writes in explanation that the reporter who was present at the meeting of the council at which the communication was read, gave what he thought was a fair report of the communication. We now find that the communication does not accuse Mr. Crawford of not settling for money collected but only of not having made returns of the same. We have now no doubt as to the truth of the report as published in good faith and without any intention to misrepresent the facts or to injure Mr. Crawford and The Telegraph regrets the publication.

Mormonism Scored in General Assembly. (Continued from page 1.)

Without any vote being taken, Dr. Duval stated that it was put in merely as a basis for the committee to work on. The report of the committee is: "We recognize union between one man and one woman in marriage as primarily consistent with the law of God in creation and necessary to the highest well being of the race."

That said union in marriage has been secured since the times of revelation in the Old and New Testament scriptures. "That we unite in the highest ideals of the Hebrew and Christian world for maintaining the sacredness of the marriage bond as necessary for the highest good of society."

That we deeply regret that any denomination should presume to reflect upon, or morally or materially damage any person that may be united in marriage according to the provisions of the civil law, whether with or without the sanction of any particular religious denomination. "And because the peace and training of our Canadian life has been greatly disturbed and the civil rights of the people greatly interfered with by the publication and attempted enforcement in Canada of the 'No Temere' decree by the church of Rome, we therefore in the common bonds of fraternity, so long and happily secured to us in our beloved land, request our respective legislatures to render it impossible by law."

EXTENSIVE WORK ALL ALONG LINE OF INTERCOLONIAL

Government Officials Pleased With Condition of Things Here

LOCAL IMPROVEMENTS To Involve Expenditure of About \$40,000—Some Important Work Planned for St. John—Deputy Minister and Other Officers of the Road on Inspection Trip.

Having completed their annual session of the Intercolonial terminal here, the party of government officials, consisting of A. W. Campbell, deputy minister of railways and canals and chairman of the board of management of the I. C. R.; Commissioners F. P. Brady and K. Tiffin; J. B. Caron, T. C. Burpee, engineer of maintenance, and W. A. Bowen, chief engineer at Ottawa; W. V. Copps, and A. O'Leary, Mr. Campbell's secretary, left for Fredericton last evening.

As a result of the local inspection it was understood that a recommendation will be made to the government to have improvements made in the vicinity of the I. C. R. shops, and the filling in of the excavations made on the I. C. R. property, Mill street. The latter is in connection with the extensive improvements that the C. P. R. is making in this vicinity. At a meeting held between the I. C. R. and C. P. R. officials yesterday morning the former agreed to bear the cost of filling in excavations made on their property.

To a Telegraph reporter last evening Mr. Campbell said that these were the most important matters in the way of improvements considered. Work in connection with the reconstructing of the retaining wall at Courtenay Bay would be immediately commenced. The officials, he said, were highly pleased with the condition in which they found the facilities here. It was altogether likely that the double track being laid on Courtenay Bay would be extended as far as Hampton. He realized that this would prove of great advantage to suburbanites.

Prospects Bright. He looked forward to a most successful year for the road. The returns for the last two months in particular, he said, had been most encouraging. The work on the line, he said, was being pushed forward as rapidly as possible. Their chief work at Fredericton he thought would be locating a site for the new station which is to be built at a cost of about \$45,000. (Great improvements were being made all along the line. A quarter of a million dollars was to be spent on the improvements at Campbellton, while in Moncton the sum of \$110,000 was to be expended on the administrative offices. It was expected that a new station will be built at Truro, the cost of which will be about \$100,000.

He referred to the fact that as a result of demands made by the unions there would be a general increase in wages this year to the extent of something like \$300,000.

WORK ON G.T.P. IS NEARLY COMPLETED

Work on the New Brunswick section of the Grand Trunk Pacific is now rapidly nearing completion and it is expected that with the possible exception of a few of the station buildings, all will be in readiness to be taken over next Christmas. Only one mile of main track now remains to be laid, the principal hindrance being caused by the steel viaducts. The estimates for the month of May for work done, as might be expected, were very small. The whole amounted to \$36,975.92, divided as follows: No. 2 contract, \$2,154.26; No. 3 contract, \$14,036.40; No. 4 contract, \$8,831.66; No. 5 contract, \$11,953.60. Total, \$36,975.92. There was no expenditure during May on No. 1 contract.

PENOLETON PROPERTY TAKEN OVER BY C.P.R.

Saturday, June 10. The Penolton property in Mill street was yesterday taken over by the C. P. R. and the house will be immediately torn down. The owner of the property could not come to terms with the C. P. R. as to the purchase price until this week, but the business was completed and the title was transferred yesterday.

This gives the railway possession of the land from the old mill almost to the foot of Main street. It is said that some trouble has arisen in connection with a property in Main street adjoining the land which is owned by a Hebrew and it is said the railway people claim that several sheds at the rear of the place are on their land and have given the owner till today to remove them.

BANK MAN LEAVES

Saturday, June 10. There was great surprise in business circles yesterday when it became known that the manager of an uptown branch bank had left the city hurriedly, leaving some of his affairs in a satisfactory state. He disappeared, it is said, on Monday last. Cotton speculation, it is understood, was at the bottom of his troubles. Rumors that he had used a large amount of the bank's money in this way were abroad yesterday but it was said last evening that the amount was not large. Little official information was available and it is not known whether or not the head office will make any attempt to bring the man back. It is not thought this will be done.

NEW BED NEEDED. "During the days of gold fever in California," said an old sea captain, "our ship was so crowded that you could hardly get a place to sleep. 'Captain,' said a man when we were three days out, 'I have just got to have some place to sleep.' 'Where have you been sleeping?' I asked. 'I have been sleeping on a sick man's passenger seat,' but he's getting better now.'—From Success Magazine.

Put a few drops of ammonia on a piece of bread and rub over your gilt frames; they will look like new.
