The Famous Rayo

Does Not Strain the Eyes

Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain.

The Rayo is designed to give the best light, and it does.

It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price.

Once a Rayo User, Always One.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

The Queen City Oil Company Limited.

GOSSIP.

SALE DATES CLAIMED.

Dec. 13th.—Henry L. Stead, Wilton Grove, Ont.; Shorthorns.
Dec. 14th.—S. J. Pearson, Son & Co., Meadowvale, Ont.; Shorthorns.
Dec. 15th.—John I. Balsdon, Markham, Ont.; Shorthorns.

E. Watson, manager of T. B. Macaulay's Mount Victoria Stock Farm, Hudson Heights, Quebec, writes: "I have sold the two-year-old Hackney stallion, Terrington Temple-bar, recently advertised in 'The Farmer's Advocate,' to Mr. Edgecombe, St. John, N. B. The other stallions, Clydesdale and Hackney, mentioned in the advertisement, are for sale."

I am well pleased with my advertisement in 'The Farmer's Advocate.' It is bringing me excellent results. I have sold 29 head of Holsteins since July; also 400 bushels of seed wheat, with enough orders on hand for another 400 bushels. I will also have some registered barley and oats for sale, and will advertise them in your paper towards spring.

INTERNATIONAL SHORTHORN SALE.

The sale of Shorthorns, which will be held during the International Live-stock Show, will afford farmers and stockmen an opportunity to procure high-class cattle from the best herds in the United States. In it can be found show cattle that have won champion and grand champion prizes this year; also several young bulls with sufficient merit in form and breeding to entitle them to stand at the head of good herds. The consignors to the sale are: E. W. Harding, Carpenter & Ross, D. R. Hanna, Elmendorf Farm, Abram Renick, W. H. Dale, E. W. Monnier, D. Tietjen, White & Smith, J. H. Miller, W. O. Minor, Mrs. Virginia C. Meredith, Prof. C. F. Curtis, C. E. Clarke, Robt. Failon, J. N. Tittmore, Fox & Gallagher, J. S. Wright, Lewis Stookey, J. G. Withers, A. M. Rawlins, H. G. Bowers. The sale will be Thursday, December 1, at 1 p. m. For catalogue, write B. O. Cowan, Assistant Secretary, American Shorthorn Breeders' Association, Chicago, Ill.

TRADE TOPICS.

Attention is called to the advertisement in this paper of W. F. Earl, Athens, Ontario, of the Earl Acetylene Generator for lighting farm dwellings and barns.

AN IMPORTANT BUSINESS CHANGE.

It will be of interest to the produce trade throughout Canada to learn that Howard B. Clemes, late of Flavelles, Limited, Lindsay, has severed his connection with this company, to assume the management of the produce department and Toronto branch of the Gunns, Limited. Mr. Clemes will devote his energies principally to the development of Gunns Limited's extensive eggs, poultry and cheese business, for which he is peculiarly qualified by his experience of over twenty years in the Canadian produce business.

QUESTIONS AND ANSWERS. Miscellaneous.

GASOLINE-ENGINE POWER.

I am going to install a gasoline engine to do general work, such as grinding, cutting straw, and pulping turnips. Would like to be able to grind from eight to ten bags per hour, and do it almost as fine as flour. What size of an engine would you recommend, and how much gasoline would it require to grind one bag?

Ans.—To grind half a ton per hour of chop as fine as stated would probably require a 13-horse-power engine, but much depends on the grinder, which should be first-class. Good work could be done with an 8-h.-p. engine, grinding about 500 lbs. per hour. One and a half cents per hour per horse-power is the estimate for gasoline.

DOES A WASHING JUST LIKE PLAY!

Six Minutes to Wash a Tubful!

Ladies! just see how easy I do a big washing with my 1900 Gravity Washer. I start the tub a-whirling. Then the gravity device under the tub begins to help and the rest is just like play. Washes a tubful in six minutes! How's that for quick and easy work? The 1900 Washer Co. sent me this marvellous machine on trial. They didn't ask for notes or cash in advance. And they let me pay for it a little each week out of the money it saved me! They treat everybody the same way.

You can have
one shipped
FREE

on thirty days' trial, the same as I got mine. The company will let you pay for it on the same easy terms they offered me. The Washer will actually pay for itself in a very short time. Mine did! I wouldn't take \$100 cash for my 1900 Gravity Washer if I couldn't get another just like it. It does beautiful work—handles anything from heavy blankets to daintiest laces. Every housewife who is tired of being a drudge and a slave to the washtub should write to

F. A. E. BACH, Manager, The 1900 Washer Co., 357 Yonge Street, Toronto, Ont., for their beautiful Washer Book and generous offer of a Washer on free trial.—Mrs. R. H. Frederick. 2191

This offer is not good in Toronto, Montreal, Winnipeg or Vancouver and suburbs, as we have branch offices in these places. Special trial arrangements are made in these districts.
