THE Fall is slowly but surely taking precedence over the Spring as a house cleaning season particularly in the Wall Paper line.

The old way of papering in the Spring only is fast becoming a thing of the past.

People recognize the fact that by papering in the Fall the home offers greater attractions during the winter days and nights—then when Christmas comes and the holiday season is at hand, your cosy, cheerful rooms help you to welcome the loved ones who have returned for a visit to the old home.

Then, again, instead of having a regular hurly-burly, topsy-turvy state of things all crowded into the annual house-cleaning of spring-time, why not divide your work up some and give to the Fall season part of the work which you have hitherto allowed to worry you during April, May or June.
