### The CBC's Wednesday Night

On the Feature page of this issue will be found a summary of the highlights of the forthcoming programs to be presented on the C. B. C.'s "Wednesday Night" series.

The "Wednesday Night" programs, comparable to the "Third" program of the B. B. C., are the first attempts in \*Canada to present classical and modern productions of art to intelligent audiences. The students at U. N. B. should fit into this category.

The C. B. C. should be commended on its efforts in raising the programs quality of Canadian radio. Surely the commercial stations in Canada and the network productions in the United States have not directed their efforts in this direction. The attitude that the lowest level of intellegence should receive the most attention is only indicative of the "praise of ingorance" that exists both in this country and in the country to the south. A poll of Canadian women on the subject of favourate radio programs is proof that more intellegent programs are desired. On this particular poll it was found that "Stage 48" and "Wednesday Night were the most popular of the evening programs.

We are not trying to say that everything the C. B. C. does is nessarily good. Many outstanding critics have pointed out weakness in many programs but at the same time they all agree that their value is unquestionable. We are very fortunate in having the abilities of a talented group of Canadians at our disposal. We hope that they have as much success in the future as they have had in the past.

The Progressive Conservative convention has put forward a platform which 99 out of every 100 Canadians cannot belp but like. It promises everything from free enterprise to a contributory social security plan. It is too bad that Mr. Diefenbaker had to receive such a kick in the face on his civil rights bill but, after all, this is a democratic country. Another part of the platform which has already caused a resurgence of the Maratime lament is the question of "winter ports". The platform states that the Maritime ports will be more fully used subject to the limations of "sound economics It is still a lot shorter to Portland from Montreal than it is to St. John or Halifax. absence of the power in Canada to amend our own constitution. The students showed their determination to get a Canadian flag by insisting that it contain "neither the unionjack nor the fleur-de-lis."

The reception of the students at the main convention was understandably mixed. In the Ontario caucus they were referred to as "Boy Scouts." On one occasion a federal minister told a student "you may be of use to your mother some day," but for now shut-up." Most of the university motions failed to be incorporated into the party platform

STUDENTS' WIVES

Every Thursday night the wives of UNB students gather for an informal evening in the Co-Eds' lounge at Alexander College. This is a reminder to the old hands and a cordial invitation to newcomers.

Arrangements have been made for another recreational period at the Lady Beaverbrook gym on Saturday night at 8 p. m. There will be facilities for bowling, table-tennis, volley ball, tumbling and badminton. Supply your own racquet and birds for badminton and wear sneakers. There is a small charge for bowling. For further, information phone Mrs. Beulah Webb 1902-41.
