Ottawa, February 12th, 1913.

Madam:-

The Department is in receipt of communications from four of your pupils, and also the sample of the baking done by them recently.

I may say that the Department is pleased to learn of the progress being made by these pupils in Domestic Science, and you may convey to them the hope of the Department that they will continue to profit by the instructions given them and eventually become useful women on the Reserve.

Your obedient servant,

Assistant Deputy and Secretary.
