

For actual assistance rendered, I desire to thank especially Dr. J. W. Ballantyne, of Edinburgh, for kindly contributing the chapter on dystocia caused by double monsters; Dr. Riddell, of the Glasgow Royal Infirmary, for his note on pelvic radiography; and Dr. Dickie, my assistant at the Western Infirmary, for revising and correcting the proofs and rendering me much assistance in other ways. I am also indebted to my colleagues, Drs. Jardine and Russell; Dr. W. L. Reid, Dr. Teacher, Dr. Lindsay, Dr. Dunlop, and Dr. James Scott, of Glasgow; Dr. Adam of Hamilton, Dr. Hewetson of Birmingham, Dr. Lloyd Roberts and Dr. Donald of Manchester, Dr. Haultain of Edinburgh; Dr. Cullingworth, Dr. Herman, Dr. Spencer, and Mr. Bland-Sutton, of London; Professors Bumm and Nagel of Berlin, Professor Barr of Paris, and Professor Edgar of Philadelphia, for permitting me to use illustrations and statements which have appeared in their published works. I must also thank the publishers of the *Journal of Obstetrics and Gynecology of the British Empire*, the *Practitioner*, and the *American Year-Book*, for the loan of several valuable illustrations, and Messrs. Arnold and Sons, and Gardner and Son, for the blocks of the instruments here illustrated.

Such of the illustrations of the pathological specimens as have not been lent me are, for the most part, from photographs and drawings of specimens in the Hunterian Museum, Glasgow University, in the Pathological Institute of the Western Infirmary, and in my own collection. The photographs of the different stages in the various operations were taken under my direction in the Glasgow Maternity Hospital. All the original drawings are by Mr. A. K. Maxwell, of Glasgow, to whom I am grateful for the trouble he has taken.

I must also thank the publishers for the courtesy with which at all times they have met my wishes.

J. M. MUNRO KERR.

7, CLAREMONT GARDENS, GLASGOW,
August, 1908.
