

WHAT COMPARISON SHOWS.

Progressive farmers are all the time comparing the merits of the different styles of fencing they see, and this is about what they think of the PAGE.

1. It is most popular where it has been used longest.
2. It successfully overcomes expansion and contraction and looks as well each spring as it did the fall before.
3. It gives most wires for the money, and has the top wires high enough for horses while at the bottom they are close enough to stop pigs.
4. The wires are made of the best grade of steel and have almost double the strength of wires commonly used.
5. The cross wires are but a foot apart so that small animals cannot spread the wires between stays.
6. It needs but few posts, lasts a lifetime, and always turns stock, and is altogether the most economical fence.
7. If you haven't yet, you should at once write to the Page Wire Fence Co., Ltd., Walkerville, for further particulars.

A SAMPLE NEAR YOU.

If you live in Ontario it is likely that there is a stretch of our fence within ten or fifteen miles of you, if not nearer. If you will write and ask we will direct you to the nearest, and you can see it for yourself.

If there is no piece near you we will sell you a roll which you can stretch on your posts, and then send it back or pay for it, accordingly as it is satisfactory or not. Better yet, if we have an agent (our agents are farmers) anywhere near you, he will come and stretch it on your post at the same terms (subject to your approval).

There are some townships where we have as yet no agent, and if your boys are running the farm, and you want something additional to do, you might take up the agency.

If you just want to know a little more about the Page without investing, just send your address on a post card and we will send you our illustrated monthly paper free.

THE PAGE WIRE FENCE CO. OF ONTARIO, LTD.,

WALKERVILLE, ONT.

No better wire fence built than the Casey Diamond Grip. Just the thing for farmers—neat, strong and durable. Will last a lifetime, barring accidents. Uses only straight wires with so little depression as not to cause the galvanize to crack or peel. If there is a dealer who wants something better to handle than he's had, try it. We also supply the Double Lock.

Wire Fence, which is claimed by some to be second to none, the lateral wire of which, as well as the upright stay, being crimped at joints. Our agents build either on premises. Agents wanted everywhere in Canada, to whom sole territory will be allotted. County and Township Rights for sale. Our Gas Pipe Frame Gate takes the lead. Patented January 23rd, 1895.
