

**Consumption Cured.**

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and lung affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYSE, 380 Powers' Block, Rochester, N. Y.

Miller & Sibley, Franklin, Pa., report the following recent tests of some of their cows:—"The heifer, Metaphysics 106974, gave for the seven days ending December 28th, 1897, 256 pounds of milk; which yielded 23 pounds 21 ounces of butter, salted 1 ounce to the pound, well-worked and ready for market. Her sire is Ida's Rioter of St. L. 13636, and her dam was Lady Anna Fogis 52734, she by Leo Fogis 10785. Pomona of Prospect 123426, for the same period as Metaphysics, gave 215 pounds of milk, which yielded 20 pounds 61 ounces of butter ready for market. Her best day for milk during the test was 32 pounds. She was 2 years 6 months old, and weighed 936 pounds at the time of test, and weighed 1,050 pounds. Her dam is High Tea 65577, and sire Ida's Rioter of St. L. 13636. This makes 21 daughters of Ida's Rioter of St. L. to have full weekly butter tests. **PLANTING PAYS**  
The better you do it, the better it pays. The Gardener who uses the "Planet Jr." No. 5 Hill Dropping Seeder gets most for his labor, because he can do the most work with the least labor. With one of these seed drills the work of two days is accomplished in one. The seed is planted better, grows better, produces most. This drill works automatically, dropping the seed continuously or in hills, covering, rolling down and marking the next row.  
All you have to do is to guide the machine, and a boy can do that. There are many other "Planet Jr." Machines for many other uses.  
If you would know all about them, send for the "Planet Jr." Book for 1898.
