

45 SHOW 45 Shorthorns BY AUCTION

(Straight Scotch)

The property of JAMES A. CRERAR, Shakespeare, Ont., on

Wednesday, March 13th, 1907

At his farm, one mile north of Shakespeare, Ont., on above date, he will sell his entire herd of 45 head of Imp. and Canadian-bred Shorthorns, representing the Daisy, Bellona and Roan Duchess strains, the get of high-class prizewinning bulls. Very many to be sold are Toronto and London winners. All are in splendid condition. There are 35 females and 10 bulls, including the stock bull, Trout Creek Choice 57962.

Shakespeare is on the main line of the G. T. R., a few miles east of Stratford. Conveyances will meet all morning trains.

Terms: Six months' credit, or 5 per cent. per annum off for cash.

Lunch at noon. Catalogues ready by end of February.

JAS. A. CRERAR, Shakespeare, Ont.

OUR MODEL INCUBATORS AND BROODERS

Are the only panacea for failure past, present and future. Just take a few minutes and read the following two of many hundreds of unsolicited testimonials from our satisfied customers:

Bayham, Ont., Jan. 31, 1907.
After using Model Incubator for one year Mrs. Mitchell writes us: "I would not be without my incubator for the price of two if I could not get another of the Model Incubators."

Yours truly, MRS. W. MITCHELL.

Orangedale, N. S., Feb. 11, 1907.
Sirs.—No trouble to run your Model Incubator, as I was away from home for 11 hours each day and machine run itself. Temperature of cellar changing 26 degrees in 12 hours; temperature of machine did not change in the least, only the last days showed an upward tendency of half to one degree. Ran machine at 103, hatched 148 chicks from 178 eggs. There was only one chick dead in the shell in the lot. Dead germs of about 8 days in the rest. Eggs were very dark-shelled, making safe testing very difficult.

JOHN D. MCNEIL.

OUR CATALOGUE MAILED FREE.

MODEL INCUBATOR COMPANY, LIMITED, 193 River St., TORONTO, ONT.

SMITH'S OVARY TONIC MAKES HENS LAY

Your hens will lay all the year round, if you will give them Smith's Ovary Tonic once a week.

One teaspoonful to four fowls keeps hens healthy—strengthens and invigorates the egg-producing organs—and renews wasted tissue due to prolific laying.

Only 25c. and 50c. a bottle. Sold by druggists, grocers, etc.

NATIONAL DRUG & CHEMICAL CO., LIMITED, MONTREAL.

April 2nd.—Wm. Meharey, Russell, Ont., imported Clydesdale mares, at Ottawa.

WOODSTOCK CLYDESDALE SALE.

Remember the great auction sale of 50 imported Clydesdale mares and fillies and 10 imported stallions, to take place at Woodstock, on Friday, March 8th. No better opportunity has offered, or is likely to be offered, for securing good, big, quality mares, single or matched pairs, two to six years old, richly bred, and some in foal to high-class horses in Scotland. This class of mares is needed in this country to breed the sort of horses that are wanted, and will bring big prices. The stallions are also of desirable size, type, quality, breeding and age, from two to six years old, sons of some of the best sires on the old sod. There will doubtless be bargains in store for those who attend this sale.

CRERAR'S CLEARING SALE.

March 13th is the date of the dispersion sale of Mr. James A. Crerar's splendid herd of Shorthorns at his farm, near Shakespeare Station, G. T. R., six miles east of Stratford, Ont., as advertised in this paper. This is one of the very best herds of Shorthorns in Canada, having for years ranked among the principal winning herds at Toronto and other leading shows, winning second for herd in the great competition at the Dominion Exhibition, at Toronto in 1903, when this herd also had the first-prize cow, Gem of Ballechin (imp.), still in the herd, her daughter, Gem of Ballechin 2nd, winning first as a three-year-old, and the senior championship at the same show. As evidence that the herd has been kept up-to-date in character, we note that, at Toronto last fall, it won third in the graded-herd competition, and first at the Western Fair, at London, besides a creditable share of the first prizes in other sections at both these shows. The herd as it stands to-day is principally made up of Scotch-bred females, personally selected and imported by Mr. Crerar, and the produce of these sired by first-class imported and prize-winning bulls, the more recent being Captain Mayfly (imp.), a Toronto first-prize winner, and the imported Claret bull, Scottish Hero. The present stock bull is Trout Creek Choice, a massive roan two-year-old, purchased at a long price, included in the sale, was bred by W. D. Platt, sired by Imp. Pride of Windsor, bred by the King, and out of the Duthie-bred cow, Sweet Fragrance (imp.), by the champion Alistair. Trout Creek Choice is registered in the American herdbook as well as in the Canadian. He is a show bull, and is proving a capital sire. Another richly-bred bull used is a son of the first-prize three-year-old and senior sweepstakes cow at Toronto, and got by Imp. Captain Mayfly, by Captain of the Guard. His breeding, and the extraordinary individual excellence of his dam, should insure this young bull a prepotent sire of the best class. Among the females, besides those above mentioned, are the three choice three-year-old cows, Queen (whose portrait appears in this issue), Scottish Lass and Rosabel 6th, all by Imp. Scottish Hero, winners at Toronto and London in 1906, and having heifer calves at foot, and the beautiful roan yearling heifers, Scottish Lass 2nd and Hero's Lass, by the same sire. Several excellent young bulls and bull and heifer calves are also included. These cattle will not disappoint intending buyers looking for first-class up-to-date cattle of the thrifty, good-doing and regular breeding sort, and the catalogue shows that for breeding they are equal to any herd in the country.

Let this Machine do your Washing Free.

There are Motor Springs beneath the tub. These springs do nearly all the hard work, when once you start them going. And this washing machine works as easy as a bicycle wheel does.

There are slats on the inside bottom of the tub. These slats act as paddles, to swing the water in the same direction you revolve the tub.

You throw the soiled clothes into the tub first. Then you throw enough water over the clothes to float them.

Next you put the heavy wooden cover on top of the clothes to anchor them, and to press them down. This cover has slats on its lower side to grip the clothes and hold them from turning around when the tub turns.

Now, we are all ready for quick and easy washing. You grasp the upright handle on the side of the tub and, with it, you revolve the tub one-third way round, till it strikes a motor-spring.

This motor-spring throws the tub back till it strikes the other motor-spring, which in turn throws it back on the first motor-spring.

The machine must have a little help from you, at every swing, but the motor-springs, and the ball-bearings, do practically all the hard work.

You can sit in a rocking chair and do all that the washer requires of you. A child can run it easily full of clothes.

When you revolve the tub the clothes don't move. But the water moves like a mill race through the clothes.

The paddles on the tub bottom drive the soapy water THROUGH and through the clothes at every swing of the tub. Back and forth, in and out of every fold, and through every mesh in the cloth, the hot soapy water runs like a torrent. This is how it carries away all the dirt from the clothes, in from six to ten minutes by the clock.

It drives the dirt out through the meshes of the fabrics WITHOUT ANY RUBBING,—without any WEAR and TEAR from the washboard.

It will wash the finest lace fabric without breaking a thread, or a button, and it will wash a heavy, dirty carpet with equal ease and rapidity. Fifteen to twenty garments, or five large bed-sheets, can be washed at one time with this "1900 Junior" Washer.

A child can do this in six to twelve minutes better than any able washerwoman could do the same clothes in TWICE the time, with three times the wear and tear from the washboard.

This is what we SAY; now, how do we PROVE it? We send any reliable person our "1900 Junior" Washer, free of charge, on a full month's trial, and we even pay the freight out of our own pockets.

No cash deposit is asked, no notes, no contract, no security.

You may use the washer four weeks at our expense. If you find it won't wash as many clothes in FOUR hours as you can wash by hand in EIGHT hours you send it back to the railway station,—that's all.

But, if, from a month's actual use, you are convinced it saves HALF the time in washing, does the work better, and does it twice as easily as it could be done by hand, you keep the machine.

Then you mail us 50 cents a week till it is paid for. Remember that 50 cents is part of what the machine saves you every week on your own, or on a washerwoman's labor. We intend that the "1900 Junior" Washer shall pay for itself and thus cost you nothing.

You don't risk a cent from first to last, and you don't buy it until you have had a full month's trial.

Could we afford to pay freight on thousands of these machines every month, if we did not positively KNOW they would do all we claim for them? Can you afford to be without a machine that will do your washing in HALF THE TIME, with half the wear and tear of the washboard, when you can have that machine for a month's free trial, and let it PAY FOR ITSELF? This offer may be withdrawn at any time it overflows our factory.

Write us TODAY, while the offer is still open, and while you think of it. The postage stamp is all you risk. Write me personally on this offer, viz: F. A. A. Bach, Manager "1900" Washer Co., 356 Yonge St., Toronto, Ont.

Rupture Cure

New, natural remedy. Absolutely certain. Scores cured lately. Write for free booklet to LY N MFG. CO., 435 Yonge St., Toronto.
