

The Howard Watch

WHEN the jeweler shows you a HOWARD Watch—note the printed price ticket affixed to the box. It states the standard price of that watch.

Responsible jewelers all over the Dominion sell HOWARD Watches—and the price of each grade is uniform everywhere.

That means that you buy on the one sound basis of value received.

It means that you and every other HOWARD purchaser owns the finest practical watch in the world on the most favorable terms.

It means the fullest possible service from the jeweler—his attention

and advice as an expert in watches, not as a shrewd bargainer over the splitting of a half-dollar.

A HOWARD Watch is always worth what you pay for it.

Several months ago the demand for the higher-priced HOWARDS became so great that we had to discontinue the making of the models at \$35 and \$37.50.

The lowest-priced HOWARD that we are making now comes at \$40. It is a 17-jewel (double roller) cased in Crescent or Boss gold-filled. The 23-jewel HOWARD in a 14K solid gold case sells at \$150—there are several grades in between these prices.

You can buy HOWARD Watches in every part of Canada. Find the HOWARD jeweler in your town. Not every jeweler can sell you a HOWARD. The jeweler who can is a representative merchant—a good man to know.

Send us your name on a postal card and we will send you—free—the little HOWARD Book, full of valuable information for the watch buyer.

E. HOWARD WATCH WORKS

Dept. No. 218 Boston, Mass., U. S. A.
Canadian Wholesale Depot: Lumsden Building, Toronto

Elm Park Aberdeen - Angus

WALTER HALL,
Drumbo station.
Washington, Ont.

Consider what God can do, and you will never despair of success.—Thomas Wilson.

1861-IRVINE SIDE SHORTHORNS-1911
One right good yearling bull from imp. sire and dam, a good worker and sure; also a number of richly-bred young cows and heifers in calf or calves at foot. For prices and particulars, address:
Elora Sta., G. T. and C. P. R.
J. WAIT & SON, SALEM, ONT.

Robert Miller, Stouffville, Ont., Can supply young bulls and heifers of the very choicest breeding, and of a very high class, at prices that you can afford to pay. The young bulls are by one of the greatest sons of Whitehall Sultan. They are good colors, and will make show bulls. I also have two good imported bulls at moderate prices and of choice breeding, and some cows and heifers in calf to Superb Sultan; the calves should be worth all the cows will cost. Some beautiful young imported Welsh Ponies still to spare. It will pay you to write, stating what you want. Glad to answer inquiries or show my stock at any time. Business established 74 years.

Scotch Shorthorns FOR SALE: 14 blocky, low-down bull calves, from 6 to 11 months old, all from imported stock. 20 yearling and two-year-old heifers of best Scotch breeding; also one imported bull, an extra sire. Farm 1/4 mile from Burlington Jct. Sta.
Mitchell Bros., Burlington, Ont.

ELMHURST SCOTCH SHORTHORNS AND LARGE ENGLISH BERKSHIRES
H. M. VANDERLIP, Importer and Breeder, Calnsville, Ont. Langford Sta. Brantford & Hamilton Radial in sight of farm. Bell phone

High-class Shorthorns I have on hand young bulls and heifers of high-class show type, pure Scotch and Scotch-topped, sired by that sire of champions, Mildred's Royal. If you want a show bull or heifer, write me. GEO. GIER, GRAND VALLEY P. O. AND STATION, ALSO WALDEMAR STATION.

SPRING VALLEY SHORTHORNS If you want a good Short-horn bull, we have them. Canadian-bred and imported. Females all ages. Also a few good YORKSHIRES—bears and sows. Prices right.
Phone connection. Kyle Bros., Ayer, Ont.

QUESTIONS AND ANSWERS. Veterinary.

MUD FEVER.

Clydesdale mare contracted mud fever last fall and is still affected. Would getting her legs wet irritate the disease?

J. M.

Ans.—Wet increases the irritation in these cases. Give her a purgative of 10 drams aloes and 3 drams ginger. Follow up with 1 1/2 ounces Fowler's Solution of Arsenic twice daily for a week, after which give 1 dram iodide of potassium twice daily. Dress her legs three times daily with a lotion made of one ounce each of acetate of lead and sulphate of zinc to a pint of water. Do not wash the legs. If they get wet or muddy rub dry with cloths, or if you have not time for that, allow them to dry naturally and then brush.

V.

ENLARGED, PUFFY JOINTS.

The knees and hocks of my three-year-old heifer all have large, puffy swellings, making them twice their normal size. They have been this way for a year. She does not thrive well, and I cannot get her in calf. If fattened, would the flesh be fit for use?

G. B.

Ans.—These are serous abscesses, caused by bruising, probably by laying on hard floors without a sufficient quantity of bedding. The condition does not interfere with her as a breeder. These puffs seldom interfere with health, hence they are seldom treated. Treatment consists in opening each and allowing escape of the fluid, then the cavities should be flushed out twice daily until healed with a five-per-cent. solution of carbolic acid. The failure to breed is probably due to closure of the os (the entrance to the womb). When in heat, get your veterinarian to dilate this, and breed her in an hour after the operation. The swellings will not interfere with the quality of the beef if she be slaughtered.

V.

SWEENEY.

Have a young horse that got sweeneyed about the middle of May. I blistered him three times with Gombault's Caustic Balsam at intervals of about ten days each time. Have let him run in pasture and not worked him any since. It has filled in some, but seems to be doing so very slowly. Is there any better treatment I could use? Would light work hinder him from getting better?

HALTON SUBSCRIBER.

Ans.—Repeated blistering is the correct treatment for sweeney. If the blister you used—of which I know nothing—was any good, your treatment was all right. I would advise the application of another mild blister, composed of one dram of biniodide of mercury, mixed with an ounce of lard, and repeated in a month. The horse will be none the worse for doing light work. If put to the plow, he might better be worked on the high side to avoid walking in the furrow. He will come around all right in time.

V.

LOSS OF PIGS—EAR TROUBLE.

1. Two sows, in fair condition and healthy, farrowed July 18th. They had a great flow of milk, but became sick, would not eat, milk dried up, and most of the pigs starved to death, and those that are alive are not thriving very well.
2. Driving mare shows signs of ear ache. Frequently when driving she tosses her head, holds it to one side, and acts as if in pain for a minute or two.

R. P.

Ans.—1. The sows suffered from constipation, possibly caused by high feeding and lack of exercise. This caused loss of appetite and checked secretion of milk, consequently the litter suffered from hunger. The administration of about six ounces Epsom salts would probably have given good results.

2. Horses seldom suffer from ear ache, but are liable to it, and when it occurs nothing can be done. It is possible the trouble with your mare is in her mouth. Have her teeth dressed, and drive with a covered bit, also have her ears examined, and if anything abnormal be seen, have it corrected by a veterinarian.

DR. J. M. STEWART'S LIGHTNING COLIC CURE

Is the result of thirty years of careful study of the causes and effects of colic. Colic kills more horses than all other diseases combined. Our remedy stimulates and relieves affected parts immediately, and by its laxative properties cleanses and removes the cause.

Absolutely no bad after effects, as is the case with ninety-five per cent. of the cures on the market.

Colic may kill your horse or cow within one hour, unless you have this remedy for instant use. Why risk the loss of a valuable animal when you can have this remedy at hand. Cost per bottle containing two doses only 75 cents. We refund your money if it fails. Write the
