Robson

the Cream of the

KOOTENAY

Dr. McDiarmid, Principal of
Brandon College, Writes:

Brandon, Man., Aug. 31, 1906
Messrs. McDermid & McHardy,
Nelson, B.C.

Gentlemen,—After spending a day in examining your Kootenay-Columbia fruit lands at Robson I am pleased to express the most favorable impressions of these lands. I am expressing that judgment by the purchase of three lots for myself and friends. The reasons of my selection of these lots are:

- (1) The evidence of the suitable quality of the soil for raising fruits.
- (2) The lay of the land—long, level stretches, first on the lower river flat and then on the bench 400 feet above.
- (3) The increased rainfall that makes artificial irrigation as a rule unnecessary, while yet there are ample possibilities for irrigation if it should ever be found necessary.
- (4) The beauty of the scenery. From every part of the lands the scenery is beautiful, but from the upper bench it is superb. The winding river and railway lines in the valley, with greenclad mountains all around, make a scene of indescribable beauty.
- (5) The extended area. Those who buy lots here will not find themselves isolated. There will be afforded in the hundreds of lots, joining each other without a break, advantages of a social, religious and educational character that are invaluable.
- (6) It is in the main line of travel to the East, via the Crow's Nest route, and to the West, via Arrow Lakes to Revelstoke. The facilities for getting fruit quickly to the market are unsurpassed.

Yours very truly,
(Signed) A. P. McDIARMID,
Principal Brandon College.

NELSON, B. C.

MENTION THIS PAPER

settlers at the nominal price of \$3 per acre and settlement duties."

This is, as we understand it, exactly the position now held by the Department.

The Bill throws open for settlement all the cultivable lands belonging to the Dominion in Manitoba, Saskatchewan, and Alberta; all that tract of land in British Columbia known as the railway belt, and the 3,500,000 acres of land granted by the province of British Columbia to be located by the Dominion Government in that portion of the Peace River district in British Columbia east of the Rocky Mountains.

No land is open for entry for homestead or for sale as pre-emption or otherwise until survey has been made.

All unoccupied surveyed agricultural lands are open for homestead entry which have not been reserved or otherwise disposed of already, but if after entry the land so entered is ascertained to be valuable on account of merchantable timber upon it, the Minister of the Interior may cancel the entry. The right to cancel also holds good in the case of lands found to be necessary for the protection of water supply, for the development of water power, for the purposes of harbor or landing, and in this case cancellation may take place at any time previous to the issue of letters patent, with the condition that compensation for improvements may be paid by the Government, amount to be fixed by the Minister.

Entry for homestead does not convey any right to minerals in the land covered, nor any exclusive water privilege.

PERSONS WHO MAY ENTER FOR HOMESTEADS.

Every male eighteen years of age, and every sole head of a family, who is a British subject, or declares formally his intention to become so is entitled to enter for homestead of one-quarter section. Any male of seventeen years old, who lives on a homestead with members of his family on a guardian, may have reserved for him on application a quarter-section, provided he makes the regular homestead entry for it on attaining eighteen years of age, and that during the year of reservation ten acres of the land have been cultivated.

A squatter, in good faith, on unsurveyed land, who has made improvements and is in occupation at the time of survey, has a prior right to make entry for one-quarter section, but entry must be made within six months after notification that the land is open for entry.

Applications for entry must be made at the land office of the district in which the land is situated, and the receipt given for payment of the fee constitutes evidence of the entry. Application may also be made to a sub-agent but the entry will not be in force until received by the agent from such sub-agent. It is permitted the sub-agent to wire the local agent, who is thereupon empowered to hold the land for the applicant until receipt of the application.

Residence must commence within six months from date of entry, or the entry becomes liable to cancellation. The Minister may, on satisfactory cause being shown, protect from cancellation for a further six months, but any entry not perfected by residence within twelve months is then liable to cancellation. Residence on a farm owned by the homesteader or family within nine miles of homestead shall be counted as residence on the homestead. Residence may be waived on account of physical disability. Residence may also be waived in the case of death or insanity, and the heirs or guardians will be required to fulfil only the house and cultivation regulations. Absence on active service by a volunteer is allowed to count as residence on homestead. Provision is made for the issue of patent to a volunteer, disabled on active service so as to unfit him for completion of his homestead duties.

Those who were allowed to make entries under the law as to hamlets, co-operative farming, and substitution of cattle for cultivation, are not affected by changes in the Act.

Letters patent will be issued to homesteaders who have fulfilled the

THE METALLIC ROOFING COMPANY LIMITED

CORRUGATED

IRON

TORONTO

Western Canada Factory, 797 NOTRE DAME AVE., WINNIPEG
HEAD OFFICE, TORONTO

Good Reasons WHY OUR Corrugated Iron

Is Preferred by Those Who Know

We use only best Apollo or English sheets.

The corrugations are pressed one at a time—not rolled—fitting perfectly, both at ends and sides without waste.

No scale, pin holes or other defects are ever found in our goods.

The galvanized sheets are coated on both sides with all the galvanizing material that can adhere to them.

The painted sheets are coated on both sides with best quality paint.

We furnish any size or gauge required—either curved or straight.

If you desire durable quality and certain economical satisfaction, send us your specifications or write for further information.

NO CHEAP TRASH

A. & G. Mutch

Craighie Mains
LUMSDEN, SASK.

Importers and Breeders of Clydesdale Horses and Shorthorn Cattle. A new importation of young Clydesdale Stallions from Scotland now on the way; should land here about March 15th. This will be one of the best importations we have yet made, consisting of good, large, thick-quality horses. We buy and sell our own horses, by this means saving to our customers all high commissions and expenses. They will also be sold on a small margin above cost.

Shorthorns, Young Bulls, Cows and Heifers from the best families

10,000 Well-Bred Cattle For Sale

Owing to the curtailment of their range by settlement, the **New Walrond Rancho Company, Livingston, Alberta,** intends to offer during the coming summer their entire herd of **Shorthorn, Hereford and Galloway Cattle** for sale

Owing to the winter feeding and careful handling these cattle are semi-domestic, the young heifers are easily made gentle. For settlers they are the most desirable imaginable, being absolutely free from tuberculosis and other diseases common among dairy breeds, and while they are high-class beef cattle, they yield a large quantity of very rich milk.

When necessary to car them, neighbors should combine so as to purchase a train-load, say 300 to 400, smaller numbers cannot be handled profitably.

Bulls will also be disposed of.
