

'O-HI-O' COOKERS Are Used Every Day in the Year

The manner in which the O-HI-O COOKER is constructed, makes it so convenient and easy to operate that owners of cookers use them every day in the year. The O-HI-O will cook everything perfectly that can be boiled or baked on any kind of stove. If you are using wood or coal stoves the cooker can be used to just as great an advantage as on oil stoves, being necessary to only have fire under one stove hole.

During the winter months people eat more than in hot weather, consequently have to cook more and the cooker is in constant use from morning to night.

Below we give Ten excellent reasons why Cookers should be used for cooking every day in the year:

- Saves Labor.** The Cooker will cook without any attention being paid to it, and leaves you free to do other house work and not spend half your time in the kitchen. If you have a servant you can get twice as much work out of them.
- Saves Grocery Bills.** Nothing will burn or dry up in Cooker.
- Saves Meat Bills.** In roasting or boiling meats you lose one third by evaporation of the juices. A four pound roast cooked in cooker equals at least five lbs. roasted. The Cooker for chickens, turkeys, corn beef hams and roasts is perfection.
- Saves Doctor Bills.** If you are a sufferer of indigestion, dyspepsia or stomach troubles, eat steam cooked foods and be cured.
- Waiting Meals.** Food in Cooker is not spoiled by delayed meals. Everything is served deliciously hot in courses as desired, without any worry of one dish burning, while looking after another. Nothing can be over-cooked.
- Saves Time.** Meals can be gotten up quicker with Cooker.
- Saves Fuel.** Both in winter and summer, whether you use coal, wood or oil.
- Saves Stopping Over.** The Cooker being on top of stove, you save yourself from stopping over, which is the case with ovens.
- Saves Pots and Pans From Having Food Burnt On.** There are no pots and pans to scrape and scour after having food burnt on. This is one of the great annoyances in the old way of cooking.
- Saves Odors.** It prevents the whole house being permeated with unpleasant odors, especially if cooking onions, cabbage and meats, all odors being confined in cooker while being cooked.

Copy of resolution passed by Association of Medical Health Officers of Nova Scotia at annual meeting held at Halifax, July 3, 1917.

In view of the fact that smallpox has been reported from various parts of the Province, including Yarmouth, New Waterford, Sydney, North Sydney, Sydney Mines, Louisburg, River Denys Road, Antigonish, Stellarton, near Thorburn, Halifax and near Bridgewater, the Association of Medical Health Officers of Nova Scotia, in annual meeting assembled, call the attention of the people of the Province to the imminent danger which now exists and asks for general adoption of precautionary measures.

As vaccination has proved to be an almost certain preventative of this disease, the Association strongly urges that every person be at once vaccinated.

The attention of school boards and boards of health is especially called to the good which would result if vaccination were made a condition to the entrance of children into the public schools.

The School Board having received a copy of the above resolution, they now place the same before the citizens, for their information and guidance.

The Bond Between

In "The Bond Between" Mr. Beban is seen as Papa Duval, a Frenchman, living with four cronies in a French restaurant in New York City. By his meager earnings as a teacher of the piano he is educating his son as an art student in Paris. The war brings the son home, and upon his return trip he unconsciously acts as an agent of a clever band of crooks. A girl detective is put on his trail and—well, see the picture, it's a Paramount Production in five parts.
