FILIPINO WOMEN.

Jager-Zeitung.

howling into the houses. - Deutsche

Their Cares Begin Early, and They Win Husbands by Hard Work. "Filipino women know how to win husbands," says an American woman who is living at Manila. "It is a common thing in the islands to see a girl, young and brown and strong, crushing rice with a heart, wooden mallet, while around her sit a number of admiring swains, looking on, but never dreaming of offering to help. And the girl doesn't expect it. She pounds cheerfully away, and by and by her reward nes in a husband to work for.

"Life accustoms the Filipino woman to labor at a very early age. As a tiny girl she is rarely seen without an appendage in the shape of a baby brother or sister perched on her little brown hip. When she grows a few inches tailer and a few degrees strong-er she is pressed into service as a wa-ter carrier, bearing heavy jars of water poised gracefully on her head from the river to her home. Now, too, she works in the fields, and a vivid bit of color she makes in her short killed scarlet skirt. When she becomes a woman-and she is a woman at fifteen or before—she may have a small shop to tend, and there is the rice to beat and much other work to do.

"Marriage brings no vacation. She is pretty sure to have many children to care for. She tends the fields, cooks and frequently has a stall in the market for several hours a day. But when the women are really old then their rest time comes. They sit quietly by. looking on as life goes past them, but taking part no more. In spite of the hard labor they have had there is generally a very peaceful look in the brown, wrinkled faces of these old women."-New York Tribune.

THE MERCHANTS' BANK

REPORT OF THE 46th ANNUAL MEETING OF SHAREHOLDERS

学以1990年1月16日

The annual general meeting of the Shareholders of the Merchants' Bank of Canada was held on Wednesday, December 15th, at the head offices, 205 St. James street, Montreal. The chair was taken at noon by Sir H. Montago Allan, the President.

Mr. J. M. Kilbourn, Secretary of the Bank, was appointed Secretary of The minutes of the last annual meeting were taken as read, after which

The Directors have pleasure in submitting the report of the Merchants Bank of Canada covering the year's business up to the close of books on 30th of November, for the information and approval of the shareholders.

The net profits amount to \$831,159.57, equal to 13.85 per cent. upon the capital, as against \$738,597.19 or 12.30 per cent. for the previous year. We hope you will consider this a good return, and from present indications we feel safe in saying that the outlook is promising for equally good results covering the next twelve months. We are loath, however, to predict, for we all know how easily it may turn out otherwise, so many factors cover into the calculation.
