Concerning McLaughlin and Cadillac Motor Cars

When making out 1920 contracts we thought we were making amply provision to take care of the demand for McLaughlin cars this season. But we had no idea then that the farmers in this section of the province would realize the high prices for their produce now prevailing. Neither did we figure on the recent steel and coal strikes which have caused the factory to cut down our allotment just about half. Although the McLaughlin factory will produce more cars this year than ever, on account of the increasing demand which is universal in every Province, County, City and Parish in Canada, we will not be able to obtain more than 25 per cent of the McLaughlin cars we could sell. If you have decided to buy a new car this year, we will be pleased to demonstrate the new models, and take your order, which will be filled in rotation. But do not delay placing your order if you wish to get a McLaughlin car during the spring or early summer months.

What might have proved a serious accident, took place on Tuesday after-

noon when two of our popular young ladies, Miss Cassie Bishop and Miss Mary McPhail, were out tobogganing. In some manner they lost control of their vehicle which carried them over a steep embankment about 15 feet. Both lay buried in the snow for some time, Miss McPhail being the first to regain her composure. She hastened to her companion fearing the worst, but on reaching her, found she was still living and no fractured bones. She gave "first aid" treatment and some time later, they wended their way sorrowfully and painfully homeward leading the remainder of the taxi behind them. They have both fully recovered from the shock.
