**"Italian Mother Ship For Submarines"**

The participation of Italy brings to the Allies great additional strength both in the army and in the navy.

That the Italian forces are modern in every sense is amply shown in many ways. In the matter of communication for instance, signor Guglielmo Marconi the wizard of wireless telegraphy and more recently of wireless telephony, has been called to Rome and put in sole charge of telephonic services in the field.

Again, in connection with the navy, the Italian naval staff have built and thoroughly tested a vessel of a very exceptional type. It is known as a mother ship for submarines and is designed to salvage and take care of injured submarines and their crews. From outside appearances, it is much like the ordinary boat except at the rear. The rear is built like a catamaran, and the rear of the hull, between the two parts of the catamaran, is provided with a large bulk head door opening into a long cylindrical chamber which runs nearly the length of the hull and is provided with ways to receive a submarine. Within the hull and along one side of this chamber, is provided a workshop fully equipped, on the opposite side is a large sick bay for the injured crew, and at other points are arranged the various other quarters for the ships forces and supplies. We will suppose that a submarine has been injured and foundered. The mother ship starts at once for the scene. It locates the submarine, attaches hoisting cables, hoists it up and in between the catamaran stern sections, opens the bulk head door, and draws the submarine into the cylindrical chamber. The door is then closed, the submarine crew liberated, and repair work started.

The whole idea is so simple and practical that it seems very strange that the submarine has been so long in use and gone through so many accidents before this mother ship has been finally brought into real actual use. However, the fact that Italy has several such vessels in her fleet, makes her of exceptional value in this war, wherein the submarine is playing so important a part and where, therefore, a rescue ship for submarines is badly needed.

R., having been arrested at Canso, N. S. He was handcuffed while being brought back and after the arrival of the train was taken to the Exhibition Building, where he was put under guard.

**STORY OF A STORE**

Tom Tasker had a corner store. He got it from his father who built up his trade from the farmers that spent their money for things made in Canada. Taskerville grew into a little town of cement sidewalks and electric lights. Tom's business developed and he got an automobile, a \$10,000 house, and a big new store with plate glass, patent show-cases and a stenographer.

"Fruit-a-tives" Keeps Young And Old In Splendid Health

J. W. HAMMOND Esq.  
SCOTLAND, ONT., Aug. 25th, 1913  
"Fruit-a-tives" are the only pill manufactured, to my way of thinking. They work completely, no gripping whatever, and one is plenty for any ordinary person at a dose. My wife was martyred to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until we happened on "Fruit-a-tives". I cannot say too much in their favor.

We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-tives". Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them.

J. W. HAMMOND.  
Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.
