Sir Robert's Speech on the Budget.

Elsewhere in this issue will be found an extensive synopsis of the criticism to which the leader of the opposition subjected the financial statements of the Government. It will be found to be a cold, calm dispassionate, yet searching and reasonable criticism of the financial situation. Sir Robert points out the large increase of Public Debt, and the inevitable need of raising another loan equal at least to the one of last year to carry out the branch railway contracts. As to the railway loans of last year, he pointed out that £14,000 was paid for half a year's interest although it had not been earned. This was a special inducement offered to the public to subscribe for the loan, and that even this had induced them to take up only about a fifth. The prospectus was issued on the middle of July and subscribers paid their instalment at various times before December 31st. The Treasury had received the money at intervals in the few months before Dec. 31st, and yet the Government had to pay nearly \$70,000, as though the money had been in the Treasury from July 1st. This payment must therefore be regarded as a bonus and deducted from the proceeds. This shows, in the figures furnished by the Government, that the Government netted minus into bonus some \$96,63 in the \$100. It is clear therefore that the Government has not netted the 96 they expected to obtain.

Received Great Fright.

When the storm broke yesterday the friends of the men Costello and Jervis who were out in an open lory received a great fright, and Mrs. Costello was for a while prostrated. When hurrying through the storm to seek aid she accidentally met Mr. W. M. Clapp, M. H. A. for St. Barbs, and told him her story. Mr. Clapp pitied the woman, reassured her and advised her to go home which she did. He then telephoned the police department, told Inspector General Sullivan of the matter and he phoned the Minister of Marine and Fisheries who was about to send a tug when the men turned up. Mrs. Costello and the others will not soon forget Mr. Clapp's kindness.

Stormy on the Railway

A severe storm raged on the railway line last night. The effects were heaviest on the western section of the road. The wind was from the S. E. with snow storm followed by rain later. The Reid Nfld. Co. had the two large rotary plows out at work clearing the road for the incoming express.

PROPERTY DEALS.—Mr. Knowling, Jr., has taken house occupied by Hon. J. C. Crosbie, on Monkstown Road, and Mr. Crosbie will go to Delgado's cottage on Waterford Bridge Road to reside.

S.S. Bruce Wrecked.

Passengers and Crew Saved, One Missing Turned Up.

The startling news reached the city this morning that the s.s. Bruce ran ashore at Puerto Nova Point, near Main a Dieu, about 8 miles this side of Louisburg, while going to that port from Port aux Basques. The ship left Port aux Basques at 8:30 a.m. yesterday with 125 passengers. A message was received by wireless from Captain Drake at 9 o'clock last night saying that the ship had then passed Scaterie and was going through heavy ice; wind blowing a strong breeze from the northwest. The Reid Nfld. Co. received a message from Louisburg this morning about 11 o'clock bringing the first news of the loss of the ship. The first news from J. R. McIsaac said:

"Bruce reported ashore Puerto Nuevo, about eight miles east of Louisburg. Have sent s.s. Louisburg and tug Thomas to her assistance."

The second message was from Mr. W. Spracklin, the R. N. Co. agent at Louisburg, and is as follows:

"Bruce ashore at Puerto Neuvo. All passengers landed except one, doubtful; s.s. Louisburg gone to her assistance. Taking all the cabs and carriages that can hire and going down to bring passengers here. Think her position bad. Will wire particulars later."

The public despatch to the Colonial Secretary confirmed the news, saying as follows:

"Bruce wrecked off Main a Dieu. Reported one person missing."

The coast off Puerto Neuvo is very rugged and the water is shallow for a long distance to sea. There are several theories as to how the loss of the ship occurred. One is that she became crushed by contact with the ice last night, and becoming leaky the captain ran her ashore to save the passengers and crew. Another is that the weather was foggy and thick and the ship was in closer to the shore than the captain believed, and that she was going full speed for Louisburg, having got clear of the ice, when she struck on a ledge of rock that runs out from Puerto Neuvo several hundred yards.

LATE REPORTS.—At 1 p.m. the R. N. Co. received another message from Louisburg saying that all the passengers and crew had been saved and that the missing one had turned up all right. This will be reassuring news to all who had friends making passage on the ship. The Reid Nfld. Co. are already making arrangements to send another ship to take up the services. The Bruce, like all the Reid Nfld. Co. steamers, is not insured, and the loss to the Reid Nfld. Co. is estimated to be about \$200,000. She has been running on the Gulf service for 14 years, and the service, taking all the circumstances into account, has been marvellously free from accidents.

English Footballers May Come Here.

Rumor has it that during the summer our footballers may be enabled to meet an English team, two of which, the Corinthians and Newcastle United, will tour Canada, playing games in different places. An effort will likely be made to have one or both of them come here, when some good football would be witnessed and our boys would be enabled to pick pointers on the game.

Sealing News Scarce.

To-day there is very little sealing news to be had, either from the Gulf or front of the country. It is thought that the gale of last evening and night would loosen the ice up and give the ships a chance to move about if they had been jammed, which is likely. A rumor was current in the city to-day that Job Bros. & Co. had a wireless from the Beothic but particulars of which would not be disclosed. We asked Mr. R. B. Job of the matter at 2 p.m. to-day, and he says the rumor is utterly untrue.

GLENCOE'S PASSENGERS.

The s.s. Glencoe left Placentia at 6:30 a.m. to-day taking Capt. Courage, Capt. Collins, Capt. House, S. Steele, Const. Farrell, Const. Gardner, J. Sinnott, J. Kavanagh, A. Elliott, Capt. Norman, R. Nurse, Miss Bishop and 35 second class.

MINARD'S LINIMENT CURES GAB-JET IN COWS.

A Popular Decision.

In the case of Mayor Ellis vs. W. J. McKay, who was tried on Tuesday last in the C. D. Court, Judge Conroy to-day delivered judgement in favour of the deft. The action was taken by Mayor Ellis for the Municipal Council to recover a tax of 4 per cent on the gross proceeds of a hockey match played between the Nova Scotia and City teams on the 13th, inst., and the deft. contended that the team imported was brought here not for purposes of profit but purely for the interests of sport. It had been shown that the Rink people lost heavily on the transaction and that the promoter and these associated with him expected to lose about \$25 per man in the matter. When the hearing was conducted Tuesday His Honour said that the spirit shown by the deft. was a worthy one which should be encouraged not combated and to-day the whole public recognize in the decision of the Judge a just and equitable judgment. Mr. Higgins, deft's counsel was awarded a brief fee of \$5. F. J. Morris, K.C., appeared for the plaintiff.

More Signatures to the Petition.

Those interested in getting more signatures to the temperance petition were about the city yesterday and received quite a number, while 250 names, it is said, were added at Torbay and Flatrock. It is believed that fully 5,000 persons have signed the petition, and if this is so, the petition is one of the most fully signed ever sent to the Legislature on a temperance matter. The bill will be taken up this evening.

Train Notes.

The Placentia train was delayed by the storm and did not arrive here till 12:30 this morning.

Time Annihilated

In France for Nine Minutes Twenty-Nine Seconds.

Paris, March 11.—Starting at exactly midnight last night time was annihilated in France for the space of 9 minutes 29 seconds. On the stroke of the hour all clocks in the republic were stopped for the time indicated, in order to comply with the time here the same as all places within a radius of 15 degrees, and in which time is regulated from Greenwich, England. All railway trains, if on time, were held up, and those which were behind schedule were required to make up the difference.

Owing to the change in time an interesting question has arisen. It is questionable if a child that was born and died within the elapsed time will legally have lived. The point is puzzling the legal talent.

Paris Society Boxing Mad.

Full Dress and Extremely Decollete Gowns are the Rule.

Paris, March 9.—Society is boxing mad. In matches in America women are conspicuous by their absence. Here audiences are about half and half, men and women. Full dress and extremely decollete gowns are almost as necessary as at the opera.

Any Friday night at the Cirque de Paris, when Sam McVea, Joe Jeanette, Harry Lewis or any of the pugs, white or black, are on, one will find more buzz-wagons and private carriages blocking the avenues of the neighborhood than about the most favored theatres in town. The list of those present includes the Barons, Duchesses and all the rest of them; and by consulting the social register one will find that half the aristocracy were out.

Seats in the front row sell at about \$5 a piece. Boxes are to be had from \$10 and \$50 up. Seats which may be had for \$1 at the opera sell at these social prize fights for about \$5. There are fights almost every night.

Coastal Boats.
