Your Boys and Girls.

Perhaps your child seems indiffer-
ent to dirt. He would rather be in a
mud-puddle than in the parlor any
day. But if the parent will take the
child to the proper place for removing
soil and dirt and have the thing done
without fuss and talk, the next time
the child comes to the table in a dirty
condition, the parent will simply have
to give the sign for retiring to the
bathroom and he will usually go at
once. Better still, you might deprive
the child of food and it will be long
before he will associate the depriva-

tion of the pleasure with dirty hands
and he will remember to come to the
table with them clean.
He cannot simply be charged with
carelessness, or indifference or shame-
lessness. This means of control can
be utilized at ten or twelve, but not at
five or six or even eight years of age.
Each age has its appropriate sort of
appeal and this the parent must em-
ploy.
