

To-day's Messages.

REPORTING UNDESIRABLES.

WASHINGTON, Nov. 8. Deportation of all aliens, engaged in "Red" activities, has been determined upon by the Department of Justice so Attorney General Palmer announced to-day. Details of a wide-spread clean up of radicals, last night and to-day, show that more than two hundred were arrested in Eastern Cities.

INJUNCTION WILL BE PRESSED.

WASHINGTON, Nov. 8. Injunction proceedings against officials of the United Mine Workers of America will be pressed at Indianapolis to-day, Attorney General Palmer announced. John L. Lewis, acting president of the mine union, having refused to accede to the Government's demand that the strike order be recalled, pending mediation of controllers.

SCENE OF ACTION SHIFTED.

WASHINGTON, Nov. 8. Scene of action in soft coal strike controversy was shifted to-day to Indianapolis, where the Government and miners representatives will meet in the Federal Court, to fight out their issues on a temporary injunction, restraining strike leaders from further activity. Although no statement concerning such move was made, it was believed probable that Samuel Compers, President of the American Federation of Labor, would seek another conference to-day with Attorney General Palmer, in an effort to settle the strike prior to the opening of injunction proceedings in Indianapolis. Numerous conferences already have been held but so far apparently they have been devoid of results. The material side of the strike, as shown by available reports, was not altered noticeably, both sides claiming gains.

WHOLESALE ARRESTS.

WASHINGTON, Nov. 8. About 500 men and women, suspected of being implicated in anarchist plot, were seized late last night in series of swift raids, conducted in fourteen cities.

INDUSTRIAL BARBARISM.

WASHINGTON, Nov. 8. Characterizing all strikes as "Industrial Barbarism," and declaring that "there is not the place in this country, either for industrial despotism or labor despotism," the Senate Committee authorized to investigate the steel strike, presented reports to-day covering its hearings, both in Washington and in Pittsburgh, and criticising both workers and the employees in the controversy, which resulted in at least a partial disruption of the steel industry. The committee's main conclusion concerned in by all the members, was expressed in a statement that, "the public has a right to demand that capital shall not arrogate to itself the right to determine, in its own way, this industrial question and it is the same as to labor, and a duty is upon congress to provide some way of adjusting these difficulties." It is recommended that congress authorize the establishment of some such mediation agency, with well defined powers, as the recently dissolved War Labor Board.

POINCARÉ FOR ENGLAND.

PARIS, Nov. 8. (Havas)—President Poincaré, accompanied by Madame Poincaré and Foreign Minister Pichon, left Paris to-night for London to return the visit of King George to France.

AUTOCRATIC PROCEEDINGS.

WASHINGTON, Nov. 9. Holding that the action of the Government's injunction proceedings against striking bituminous coal miners to be "so autocratic as to stagger the human mind," the Executive Council of the American Federation of Labor declared in a statement issued after a four hour meeting, that the miners' walkout was justified and promised for the strike the entire support of organized labor, and asked aid and endorsement for it from the public. The Lever Act, under which the Government acted in the court proceeding, was never enacted to apply to workers, the Council asserted, and its use against the miners was classed as "an injustice, not only to workers but to all liberty loving Americans." The action was taken without the participation of William Green, Secy. of the mine workers, who is a member, but all the remaining principal officers were present.

NO CASUALTIES.

NAMUR, Belgium, Nov. 10. There were no casualties in the explosion of a large ammunition dump, near Fort Diave, on Saturday. Only four of fourteen British sentries on duty had answered for roll call during the day, and it was feared others had been killed. Later, however, the missing men reported.

MARINE DISASTER.

PORTLAND, Nov. 9. The loss of a 200 foot schooner, apparently a four masted, and of recent construction, was disclosed by the sighting of a hull bottom up, east of

entrance of harbor here to-day. Fishermen, who came upon the derelict while hauling lobster traps, said the stern was partly submerged and they could not make out name of schooner. Much wreckage was floating about the hull.

MINERS OFFICIAL STATEMENT.

WASHINGTON, Nov. 9. In a statement issued this evening, regarding the cause of the strike of Bituminous Coal Miners, the Council of the American Federation of Labor declares that officials of United Mine Workers did everything in their power to avert this great industrial struggle. The statement characterized the Government's injunction action as "an invasion of the rights of the miners," intended to starve miners into submission by cutting off their strike benefits, and demanded the withdrawal of the injunction secured Saturday at Indianapolis, "to restore confidence in the institutions of our country and respect to our courts." The statement concludes, "by all the facts in the case the miners strike is justified. We are convinced of the justice of the miners case, and we pledge to the miners the full support of the American Federation of Labor, and appeal to workers and citizens of our country to give like endorsement and aid to men engaged in this tremendous struggle."

GOTHAM'S PREPARATIONS.

NEW YORK, Nov. 8. A program of entertainment for the Prince of Wales, who will arrive in New York on November 12, was outlined to-day, which was reminiscent of the welcome given nearly sixty years ago to the Prince's grandfather, King Edward the Seventh. Among the more important features will be a special gala performance at the Metropolitan Opera House, visit to West Point and reception, which the Prince will give on board the Renown to thousand school children. Secretary of State Lansing to-day telegraphed Mayor Hylan, official notification of Prince's plan to visit New York.

JELICOE IN CANADA.

VICTORIA, B.C., Nov. 9. The battle cruiser New Zealand arrived at Esquimalt at 2.30 Saturday afternoon, beginning Admiral Viscount Jellicoe's Canadian lap of his Empire tour. In an interview Viscount Jellicoe took exception to cabled despatches from Australia, which intimated that he had mapped out a plan for naval co-operation between Great Britain and the Dominions in the Far East. He had been invited by several Dominions to consult with them on the question of naval defence, and it was far from his purpose to lay down any hard and fast rule whereby that would be accomplished.

BIRDS OF A FEATHER.

LONDON, Nov. 10. Mustapha Kamal Pasha, head of the nationalist Turkish Government set up in Asia Minor, has proposed an Alliance with Nikolai Lenin, Russian Bolshevik Premier, according to an exchange telegraphic despatch from Copenhagen.

WILL ARRIVE THIS EVENING.

WASHINGTON, Nov. 9. The Prince of Wales and his party will arrive in the United States at Rouses point, Monday evening, Nov. 10, and reach Washington at noon Tuesday, Nov. 11. Secretary Lansing left Washington this afternoon to meet the Prince at Rouses Point, and will accompany the party to Washington. Tuesday, Nov. 11. Secretary Lansing shall meet them on arrival here as the representative of President Wilson.

Editing a Newspaper.

Editing a newspaper is a pleasant business—if you can stand it. If it contains any advertisements the subscribers claim they take too much space.

If there is a scarcity of advertising, it is unpopular, and the people won't have it.

If we attend church regularly, they say we do it for effect.

If we stay away from church they say we are monstrous heathenish.

If we accept an invitation to a wedding, they say we are invited to "write it up."

If we are on the street much, they say we neglect our business.

If we avoid going on the street, they say we don't hustle around after the news.

If we reject a long-winded communication, its author becomes furiously enraged and discontinues his paper.

If we publish lengthy communications, our subscribers say we lack discretion and put it in to fill up.

If we omit to decorate our office on National Days they say we lack enterprise and there isn't a drop of patriotic blood in our degenerated carcasses.

If we omit jokes, they say we are poor, miserable fossils.

If we are single they say we are too helpless to get married.

If we are married, they say it's a pity for our wives.

We are liable to receive these raps and any more, and we are always ready to receive visitors. Of course we do not claim there is any work in running a newspaper. Everybody knows it's a snap.—Ex.

New Chinese Paper.

A new weekly newspaper has made its appearance in Paris. A new paper is no event in the French capital, but the new weekly is something quite out of the ordinary. It is, in fact, the first Chinese paper to be printed in France. Mr. Fu is responsible for its publication, which, he considers, meets a real need at the present time, since some 80,000 of his fellow countrymen live and work in France. Some difficulty has been experienced in getting the paper started, owing to the total absence of Chinese characters in the printing establishments of Paris. The text of the paper has to be hand-written, then photographed, then clichés are taken. From 8,000 to 10,000 copies are circulated at 10 cents apiece.

Jonah and the Whale.

Recently a correspondent of Robert Page Lincoln asked the well known angler his view of Jonah and the whale. Not feeling quite capable of answering this particular question Mr. Lincoln asked Dr. David Starr Jordan his opinion.

Dr. Jordan wrote to Mr. Lincoln as follows:

"I believe that it is commonly thought that the story of Jonah, like the story of Job and ancient tales in the Bible is of the nature of poetic fable, and valued, not for its literal truth but for the lesson it may teach. "One of the most unfortunate things in religious history is the literalizing of words of men who talked with Oriental figures of speech."

"In comparing religious truth to the shade of the great rock in a weary land," it was not meant, that the details of the phenomenon should correspond to those of a shade in a desert. This is the explanation which was given by the well known Israelite, Rabbi Voorsanger.

"The ordinary whale of the various species has only a narrow throat and feeds on smaller organisms. The sperm whale, which does not enter the Mediterranean so far as I know, has a much larger throat and jaws with strong teeth."

"According to Linnaeus the whale that swallowed Jonah was a great white shark (Carcharodon carcharias) which has been known to swallow men—but usually in pieces."

"I secured one at one time at Soquel, California, thirty feet long with a partly grown sea lion of 100 pounds which it had swallowed whole. But the sea lion, though a tough animal, did not escape, and was in a rather poor condition when I found him."

"I believe that it is unfortunate that the great and noble parts of the Bible should be obscured by insistence on literalism in Oriental poetry."—New York "Sun."

Llewellyn Club.

The members of the Llewellyn Club will meet at Canon Wood Hall at 8 o'clock this evening when the Executive Committee for the year will be elected. Mr. Dunbar, a prominent Canadian lawyer and business man will be present and will give a Lecture on "Newfoundland's Greatest Need and How to Meet It." Mr. Dunbar is visiting the city in connection with a movement of vital importance to the whole of the Dominion, and it is hoped that every member of the Club will make an effort to attend and bring a friend with him. A cordial invitation is extended to all men of the city to hear this lecture.

A Suggestion.

Now that the political air has been cleared in the city we offer the suggestion that the APPEARANCE thereof be improved as much as is compatible with maintenance of expenditure, and that a couple of Municipal Council employees be delegated to remove some if not all of the posters and other signs from the telegraph poles and fences. As it will be seen upon any thought, the best time to accomplish that, is while the posters are wet, which would be during a rain shower or immediately following.

However, the officials of the Council need not be reminded of their duty nor of the method to be adopted in its execution. We merely mention the matter in passing.

Schooner Ashore on Labrador.

The following message was received on Saturday afternoon by the Department of Marine and Fisheries:—"Schooner Florence ashore at Indian Tickle; total loss. Twenty-four persons on board; all saved. Send some provisions on Sagona, as crew ashore living on natives."

J. C. SNOW, Indian Tickle.

Girl Run Over.

About 8.30 this morning a young girl named Gertrude Noseworthy was injured when she fell from a moving car, the wheels of which passed over her thighs, cutting and bruising her. The driver of the horse carried her into the surgery of Dr. Mitchell, which was nearby, and the bruises were dressed by the latter. Thence she was driven home in a cab.
