

CONSUMPTION AN UNKNOWN DISEASE IN TEN YEARS.

Statement of Dr. John Ferguson—The New Free Consumptive Hospital an Immediate Helper to this End.

The statement of Dr. John Ferguson, one of Toronto's well-known physicians, that "if consumptive patients were properly isolated and treated, within ten years from now tuberculosis would be one of the rarest of known diseases,"

The curability of tuberculosis is clearly in evidence in the records of the Muskoka Cottage Sanatorium, under the management of the National Sanitarium Association, and under whose auspices the new Free Consumptive Hospital has been built.

In four years 510 patients have been treated, and more than 352 have been cured so helped that they could go back to work, caring for wife or child or those dependent upon them.

The new Free Consumptive Hospital is situated in Muskoka, not far from the Muskoka Cottage Sanatorium, the two gentlemen who have generously borne the cost of constructing the building desiring that the same benefits that have come to patients of the Muskoka Cottage Sanatorium, by virtue of its excellent situation, should go to the poorer patients, whose only hope is in admittance to the Free Consumptive Hospital.

All that is wanting now is the furnishing of this hospital with beds and other necessary appointments. The National Sanitarium Association, because of their heavy debt, are unable to undertake this part of the work. Only let the many whose hearts are touched by such distressing cases as are constantly chronicled in newspaper columns, send their contributions of \$1.00 or if possible, \$5.00, \$10.00 or \$50.00, and no time will be lost in opening wide the doors of the new hospital. Contributions will be received by Sir Wm. R. Meredith, Chief Justice, 4 Lampart Ave., Toronto; W. J. Gage, Esq., 54 Front St. West, Toronto; or The National Trust Co., Limited, Treasurer, 22 King St. East.

Many School Children are Pale, Weak and Nervous. Debilitated and Exhausted in Mind and Body—Dr. Chase's Nerve Food is Surprisingly Beneficial for Children.

The severe and ever-increasing strain of competitive examinations coming at a time when every boy and girl is undergoing trying physiological changes does manifestly make mental and physical wrecks of school children. Run down in health, with the blood thin and watery and the nervous system exhausted, children have no chance to escape the many ills that beset a feeble body.

The indications in South Africa are still favorable. London, April 28.—Cabling from Johannesburg, under date of Friday, April 25, the correspondent of The Daily Telegraph says that Gen.
