The Postponed Wedding.

BERLIN, Nov. 8.—The Koelnische Zeitung says that Nicholas II. and Princess Alix will be married in three months.

Poor Prospect of Peace.

LONDON, Nov. 8.—The Standard will say tomorrow that there is good ground for stating there is at present little prospect of united action of the powers in China. Russia is ready to act, and France offers no difficulty, but Germany does not admit the utility of intervention.

Germans Defeated by African Tribesmen.

BERLIN, Nov. 8.—A report has reached here that the town of Kilwinkindji, East Africa, was recently attacked by a force of 2,000 Mawandi tribesmen.

A detachment of German regulars and native troops repulsed the attacking party, who subsequently made another assault and captured the town. The engagement was attended with heavy losses to both sides. The German forces, it is said, are not sufficiently strong to retake the town.

The War in the East.

LONDON, Nov. 8.—A dispatch from Shanghai says: The panic in New Chang and throughout Manchuria continues. Numerous country people are arriving at New Chang, and two-thirds of the stores have been closed. A war levy of \$3 per head has been imposed in Hankow. The people will probably resist it.

LONDON, Nov. 9.—A dispatch to the Central News from Chee Foo dated Nov. 6 reports that hundreds of Chinese are arriving there from Manchuria, who are fleeing, frightened at the approach of the Japanese. The Chinese troops and such of the Chinese fleet as are not cooped up at Port Arthur have been ordered to attack the Japanese wherever they meet them. It is reported that Port Arthur is still invested by the Japanese, and that twenty forts there have been captured by them.

The Chinese soldiers are deserting from New Chang, fearing an attack by the Japanese.

The Grand Trunk.

LONDON, Nov. 8.—Sir Henry Tyler, the president of the Grand Trunk Railway of Canada, said yesterday in an interview that all statements that the directors were placing obstacles in the way of an investigation of the company's affairs or refusing to permit an examination of the books, as was promised at the recent meeting of the stockholders, were absolutely untrue. The assertion that the accounts of the Grand Trunk in its relations with the Toledo, Saginaw and Muskegon, Chicago, Detroit and Canada Grand Trunk Junction, Michigan Air Line and Cincinnati, Saginaw and Mackinac companies are involved is also untrue. The accounts are perfectly intelligible, but every transaction between these lines and the Grand Trunk cannot necessarily appear by itself on the company's books. The present financial position of the Grand Trunk is not the result of mismanagement, but of the unfavorable industrial condition in the United States and trade causes in Canada, well known in Canada and the United States.

Will Rest with His Forefathers.

ST. PETERSBURG, Nov. 8.—Preparations for the funeral of Alexander III. are proceeding rapidly. The services will be held in the Cathedral of St. Peter and St. Paul. The tomb selected as the final resting place of the Czar's body adjoins that of Alexander II. The cathedral contains the bodies of all the Emperors of Russia who have reigned since Peter the Great. The municipal council have passed a vote of 50,000 roubles to be used in draping the city. The municipal council today voted an unlimited credit for the purpose of defraying the expenses of the reception here to Emperor Nicholas II. and the funeral of Alexander III., and also for the erection of a monument to the dead Czar.

The most solemn of religious services were held at noon yesterday in the church at Livadia, to which the body of Alexander III. was removed the previous night. Masses were said in the presence of the body. The services were attended by Emperor Nicholas II., the Czarina, Prince and Princess of Wales, the representatives of various foreign powers and many others. The Czar was deeply affected at the conclusion of the service, and after the royal visitors present and the troops had viewed the body, the populace were formed in line and filed past the coffin to take a farewell look at their dead ruler.

An imperial order was promulgated today with a gift of £7,000, initiating a subscription for the purpose of giving a dinner to the poor of Kharkoff the day after the passing through that city of the train bearing the late Czar's body.

SEBASTOPOL, Nov. 8.—The cruiser Pamiat Merkuria, with the body of Alexander III., arrived here this afternoon amid the firing of salutes and the tolling of bells. The Czar and the grand dukes carried the body ashore and placed it in a railway carriage fitted as a funeral chapel. The train started northward at once. High military officers will guard the body throughout the journey to St. Petersburg.

MOSCOW, Nov. 8.—The city is making ready to receive the body of Alexander III. with all the pomp of mourning. The streets have been hung with black. The fronts of many houses and shops have been

hidden with black and white cloth. Flags wound with crepe are seen in every window. On the corners and in the squares funeral arches are building with feverish haste. In the Kremlin scores of workmen are kept busy night and day.

REVISED RETURNS.

It now looks as if Gov. Tamm (Dem.) will be re-elected in Tennessee by a small plurality.

Indications today are that Holcomb (Pop. Dem.) is elected Governor of Nebraska. The Republicans carried everything else. The total vote of New York State, according to latest semi-official returns, is: Morton, 637,952; Hill, 458,962; Wheeler, 28,368; Morton's plurality, 149,990.

Republican Chairman Babcock's latest returns show that the Republican representation in the next House will be exactly 250—a majority over all of 144. Only two Populists are elected in the west, one in Kansas and one in Nebraska.

The New York board of aldermen is Republican. The Republicans have sixteen votes in the board and Tammany representation fourteen.

THE LATEST CIPHERING.

New York, Nov. 9.—But few changes in the Congressional table were reported today. Judging from the latest returns, the total representation of each party in the Lower House in the 54th Congress will be: Republicans 245, Democrats 101, Populists 10.

Morton's plurality in New York State is 156,781. New York city cast a heavy vote for the municipal construction of underground rapid transit and for the Greater New York. Brooklyn was almost evenly divided on the subject of consolidation. The supporters of the movement claim that it was carried, but the latest figures received at police headquarters in Brooklyn show that there it is lost by 100 votes. Staten Island and Long Island City voted for consolidation, and Mount Vernon and other Westchester towns voted against it.

LIFE ON THE OCEAN WAVE.

The Terrible Sufferings of Shipwrecked Sailors.

Several Men Swept Overboard—The Others Lashed to the Bulwarks Three Days and Three Terrible Nights.

HALIFAX, Nov. 8.—F. R. Sitemen, the owner of the schooner Coronet, received particulars today of the loss of that vessel, before reported abandoned at sea. The vessel had fine weather after leaving Halifax on Oct. 14 at 3:30, when they met a gale which increased in fury. The mate then had to be cut away, and the vessel filled with water by the skylight and companion way. The steward, named Angula, a native of the West Indies, was drowned. The vessel then partially righted. The crew at this time were lashed to the weather rail. There they had remained through the night.

At 10 a.m. next day a sea came aboard and washed off one of the seamen, a Norwegian, and the next day came another with tremendous force, washing over the remainder.

Capt. Balcom and two seamen, named Fred and Peter, were all that remained. They were continually washed and knocked about all through the 17th inst., enduring suffering without food or shelter. The Creole Prince, from New York to Trinidad, bore down and took the survivors off. They were all exhausted, their limbs swollen and badly bruised, and they were almost nude, their clothes having been washed off them. When sighted by the steamer the men were lashed to the top of the house and were in a pitiable condition. The vessel had sunk to the water's edge, and the masts, which had been cut away, still held by rigging.
