Desperate Tactics of the Cœur d'Alene Strikers,

The Governor Proclaims Martial Law in the Disaffected District.

Non-Union Miners Shot- More Bloody Work in Prospect-Quiet Reigns at Homestead.

It is reported that all the Cœur d'Alene mines are filled with explosives preparatory to a general destruction of the property. The strikers will have trouble if they do this, and plan to escape, as State and Federal hold practically all the passages of egress.

Pederal hold practically all the passages of egress.

Boise, Idaho, July 13.—Gov. Willey has issued a prochamation placing Shoshone county under martial law.

TWO MEN KILLED.

A dispatch to the Governor from Judge Heyburn at Spokane says the union mendrove 132 non-union miners out yesterday, firing on them and killing two. Supt. Dickinson of the Northern Pacific telegraphed the Governor from Tacoma this afternoon that the tracks and bridges have been destroyed in the vicinity of Mullan and Wallace and the wires have been cut. Another message to the Governor says that several non-union men have been blown up and that the union men propose to fight the and that the union men propose to fight the troops to the death.

and that the union men propose to fight the troops to the death.

DESPERATE DOINGS.

The Union Pacific has just received advices from Geur d'Alene that the Northern Pacific Railroad bridge, together with several hundred feet of track, were blown up by the strikers west of Mullan this morning. The company is preparing to take all non-union men out of the mines this afternoon to Tokao. The union men assert that the moment troops appear on the scene they will blow up the Bunker Hill and Sullivan, Sierra Nevada and Gem mines. The burning of the bridge near Mullan will hold the troops there unless they march to Wallace and Wardner, which is about ten miles. It is now reported that the union men have taken Van Delashnutt, of Portland, William Sweeney and other mine owners, and will hold them as hostages until the trouble is settled.

The wires have been eut. he trouble is settled. The wires have been cut.

Aspecial train bearing 200 troops of the Fourteenth Infantry has left Vancouver, Wash., for Cœur d'Alene mines. Two companies have left Sherman for the scene of the trouble. In all about 700 United States troops and militia are on the way to the mines and were to arrive there to-night.

SENT BACK.

WALLACE, Idaho, July 13.—The colored troops reached a point two miles west of Mulian, when they were ordered back to Missoula. Several bridges were burned west of Mullan to prevent the troops from crossing. All is quiet at Wallace this afternoon and no trouble is probable at present. SEVEN HUNDRED SOLDIERS ON THE WAY

THEY WANT EIGHT HOURS.

Policemen Ask for a Change in the Hours of Duties—No Chance to Go to Church—The Police Com-missioners.

The policemen of the city have a grievance. They believe in the eight-hour system. At present the men when on day duty have to put in ten hours, when on night duty they serve eight hours. What they desire is a uniformity—eight hours day and eight hours night.

cause of complaint is sended work. The scheme devised a while ago was supposed to afford us more time to go to church, but it really made it worse. Before, we used to leave work Saturday evening and return at 9 o'clock Sunday evening. Now we have to go back on the beat at 2 o'clock. A man has no time to attend church in the morning, get dinner, change clothes and report punctually at the station within that time. The eight-hour rule would alter this."

Police Constables Nolson Smith, Egleton and Lancaster appeared before the police commissioners this morning as a deputation representing the force. They explained their grievance before the board and were listened to attentively. The board instructed Chief Williams to communicate with other cities and ascertain the systems there.

Another complaint was satisfactorily disposed of. Under a past regulation the grade "of first class" has been limited to 20 men. All over that number were graded in the second class. Constables Halton and Monahan have served two years with good records and might serve for years more without promotion under the rule in vogue. It was decided to advance all men to "first class" positions, provided they have been on the force two years and have no mark against them in the defaulter's book.
