A Young Lady of Middlesex Co. Tells How She Was Cured at Last by Doan's Kidney Pils.

A great deal of suffering that women are called upon to endure is the

result of kidney trouble. When the back, the head and the limbs ache, when there is tiredness and weariness, dizziness and dimness of vision, in all probability the kidneys are out of order and poisons are being absorbed in the system that these organs should carry off.

The most effective remedy to cor-rect the kidneys so that they will re-move all poisons from the blood is Doan's Kidney Pills. Just read what Miss Gertie F. Steele, Belton P. O., says about them; "For three or four years I have suffered very much from pain in my back, especially in the mornings, and felt run down and worn out. I doctored off and on for some time and took a good deal of medi-cine, but derived little benefit from

A Letter From Rev. Walter

Rigsby. To the Editor of The Advertiser: Your article in regard to the selfdenial and sobriety of the army in active service in Africa certainly is a very effective reply to the opinions expressed by Col. Aylmer and others in regard to the mistake of having no canteens in camp at Carling's Heights. Last Wednesday, on the camp ground, I was the unwilling hearer, under peculiar circumstances, of a conversation I dared not interrupt, between a father, who had two sons in camp, and a senior officer, who said: "I am very much pleased to have you visit the grounds, that you may see for yourself how orderly it is. Many people think we have none but the toughs We want first-class young felwere consuming whisky and soda.

No doubt it is eminently proper that the men in camp should receive kindly consideration, and some think it quite the proper thing to afford them every facility for drinking, and then have an officer preside at a court-martial and give an unseasoned private or "non-com." suitable punishment, because of his deplorable inability to carry as much intoxleating drink as his commanding officer. The sooner Canadian officers learn what the African campaign teaches, that the use of intoxicants, like "frontal attacks," "pipe clay," "red tape," etc., must be rele-gated to the "limbo" of all mistaken and worn out military opinions and methods, the better for all concerned. It won't be long before this country will demand of its soldiers what the railways require of their employes total abstinence when on duty. I was a volunteer in youth, and approve of military drill, if for no other reason than as a means of physical training. An old soldier who heard my boy in-tended going to camp, said to me: "Don't you know a volunteer camp is hell?" I certainly did not. I must admit it is not heaven, and many hesitate to let their boys join the vol-unteers because of the drink. I am pleased to hear that the chaplains exerted a good influence this year. I feared they were more tolerated than

By the way, as one interested, how is it our Anglican friends seem to have the monopoly? Isn't that another of those slow-to-die usages connected with our military system? Perhaps I've asked a question that "nobody don't understand."

The thing I rejoice in is that despite the various private arrangements for drinks, intoxicants in officers' mess, and the proximity of a large city, the present camp at London has been very orderly-no doubt because of the absence of the open canteen. So far so good. Yours,

WALTER RIGSBY. Kincardine, June 16, 1900.

Just Her Way.

A woman, her matrimonial ventures and her disinterested distribution of her chilren, are just now engaging the attention of Inspector Sanders, of the Children's Aid Society. At one time the woman's name was Robinson. What it is now is matter of conjecture, for the erstwhile Mrs. Robinson is not esthetic in her choice, nor does she let such little things as past alliances deter her from making new ones. As Mrs. Robinson, she had two children. Robinson and not provide for his family as a husband should, and for a while the children were nourished in the shelter home. Afterwards, however, when it was represented that the parents were living together in comparative felicity, the children were returned to them. Mr. Robinson there-upon made a quiet departure from the scene. Mrs. Robinson waited, but he did not return. She essayed to enshe was not successful until she went to the Muncey Indian Reserve, where she attracted the attention of the fam-ous Dan Kick, who wooed and won her. As she did not personify his ideal Dan kicked her out. Before going she very generously gave her two children to some Indians, and it will be to obtain possession of these that Mr. Sanders will journey to the red men's home at Muncey some time this week.

A SURE CURE FOR HEADACHE.-Billous headache, to which women are more subject than men, becomes so acute in some subjects that they are utterly prestrated. The stomach refuses food, and there is a constant and distressing effort to free the stom-ach from bile which has been unduly secreted there.
