#### STOCK MARKETS NEW YORK.

H. C. Becher, broker, Bank of Comnerce building, received the following Rock Island. by private wire from Bartlett, Frazier & Carington, today: New York, Aug. 12-Noon.-There is an all round improvement in the market to-day, and it reflected a better sentiment and improved conditions. Some of the Union F advance must be attributed to short covering, but there has been good buy-ing in several shares. This class of buy-

ng is not impartially distributed, but the U.S. Steel, Pfd general list has shown a more aggressive Wabash, cond. cone. The advance has been precipitate, berhaps, and the halt towards noon re-dects a more conservative attitude. The Wisconsin Central. perhaps, and the halt towards noon re-flects a more conservative attitude. The abiding irritant of a market sharply advancing is the inevitable taking of profits. That is now in evidence, and the general stability of the list speaks well for its inherent strength. Commission house business has increased somewhat, and there is a continuance of investment buying. London is buying stocks, and there is a relaxation of the tension induced by rumors. These are the cumulative causes of the better prices, aside from short covering. There has been good buying in Reading, Pennsylvania, the Pacifics and St. Paul. Sales noon, 408,400 shares.
