ist can supply them.

men should have well-nourished nerves, but if the blood and vital organs do not supply the chemical or substance known as nerve fluid, then the waste of the nerves is not renewed daily and hourly as it should be. The nerves become exhausted, giving rise to such symp-toms as trembling hands and limbs, cold feet and hands, melancholia, hysteria, timidity, nervousness, sleeplessness, dizziness, heart palpitation, pains in the back, headache, languor and weariness at all times. A most valuable nerve treatment, restorative in every sense, is to be found in the following prescription, emanating it is said, from a brilliant and successful specialist on nervous ailments. The treatment can be prepared in the privacy of home, and thus causes no one any embarrassment First get three ounces of syrup of sarsaparilla compound in a six-ounce bottle. To this add one ounce of compound fluid balmwort, shake

well and let stand two hours. Then add one ounce of tincture cadomene compound (not cardamom). and one ounce of compound es-sence cardiol. Mix. Shake well and take a teaspoonful after each meal and one when retiring.

It is astonishing to feel the new nerve force, the steadied nerves, and the control of every muscle in the body after using this. Over-worked office men, and the many victims of society's late hours and dissipation will surely find in this the restorative, rejuvenating

force they are sorely in need of. The ingredients are used in vari-ous prescriptions and any good

ing far short. The successful man works, eats, and plays with the keenest enjoyment, because his nerves are keenly sensitive. He tastes, hears, sees and feels all with the highest emotions of pigroups healthy, perves tions of vigorous healthy nerves As a consequence he has stamina,
