Answers to Beauty Queries

The Honna Stain.

Dear Miss Grey—Will you kindly tell me how I may reduce my hips? I would not look so large if my hips were smaller.

FANNYA. Here is an exercise which, if persisted in, reduces the hips rapidly. Life extended upon the floor, supporting yourself by one hand, while the other is placed upon the hip. While holding this position raise the body gradually from the floor until the whole weight is supported by the hand and feet. It is comparatively easy to get the body from the floor as far as the knees, but to bring it up to the full extent is not easy at first. It should be tried first on one side and then on the other. When beginning this exercise you should be careful to get used to it gradually.

ADVERTISER PATTERNS

The doctor dropped his questioning, and turned to his patient. He subjected the man to the stomach pump and hot baths. Donaldson assisted, and watched every detail of the vigorous treatment with increasing interest. At the end of two hours Aradale was allowed to sleep. Seton put on his coat, and wyote out instructions for the further care of the man. But before leaving he again turned his shrewd eyes upon Donaldson himself. "My boy," he said kindly, "you ought to pay some attention to your own health. I hate to see a man of your age go to pieces."
