

Come to the Opening Display of Men's Fall and Winter Fashions at the New Semi-ready Store

YOU ARE INVITED

That English Effect

The rolling lapel, with its soft, yielding and natural effects, is one of the outcomes of our wholesale migration to see the Coronation festivities.

It is "that English effect," and it is illustrated in the Semi-ready style book this season. The truly English garment is characterized by the natural shoulders, the softness of the coat front and lapels, the precise roundness of coat corners, and the absolute absence of even the suggestion of a "dip." The vest is high cut and the trousers are "slim."

You need not buy because you look, nor keep because you buy.

We want this store to be yours for service and satisfaction.

Come---just to see.

TOM L. HAYGARTH

182 DUNDAS STREET

RAILWAY OFFICIALS LOOK OVER SITUATION

Policy of Retrenchment and Economy Under Discussion.

Chicago, Aug. 30.—Members of the committee on relations among railroads of the American Railway Association met here today, and discussed the employment situation on transportation lines in different parts of the country. The session was held behind closed doors, and railroad officials declined to discuss any action likely to be taken in advance of the meeting.

The policy of retrenchment and economical administration adopted by a number of roads, which has resulted in the laying off of thousands of employees, was considered. It is said, at the conference. The dispute with union labor which has engaged

FEVER AFTER DEATH

Remarkably High Temperatures Noted By French Scientist.

London, Aug. 30.—In a scientific article about the highest body temperatures observed in man the Italian periodical Nuova Antologia mentions cases described by the French professor Lefevre, who has recorded fever temperatures ranging up to 43 and 44 degrees Centigrade. Canavelli found in one case of intermittent fever 46 degrees; but the most remarkable instances are those given of high temperatures measured after death.

Professor Wunderlich found in a sufferer from tetanus a temperature of 47.5 degrees, which increased after death and set in to 46.37 degrees. The highest temperature ever observed occurred in a case described by Professor Lavastine. The patient died of inflammation of the lungs, and five minutes after death had taken place the inner organs showed the temperature of 138.2 degrees Fahrenheit. An

BIG WINE HARVEST

Great French Industry Is Helped By the Hot Spell.

London, Aug. 30.—The persistent spell of hot weather in France promises a wine harvest average in quantity but excellent in quality. In fact, if some rain falls the quality in some districts may prove remarkable.

In the Marne, where champagne, the gathering of the grapes is expected to begin on Sept. 10, from fifteen to twenty days in advance of the usual date. The vintage of 1911 is expected to surpass in delicacy even that of 1893 of famous memory. The Marne's southern neighbor, the Aube, which scored having its output labelled as champagne of the second zone, is favored with fine grapes, but not a very early harvest. In Burgundy a small harvest will be compensated for by extra quality. In the Yonne Department around Chablis, the vintage of an average yield is expected; in the Saone et Loire Department, a half; around Lyons the reports are better, and the

STREET LIGHTING WAS CRITICIZED

Ald. Mitchell Says He Could Duplicate It for \$7,000 a Year.

LIGHTS ARE VERY POOR

"Wait Till the Leaves Are Off the Trees," Ald. Tancock Told No. 3 Committee.

The hydro-electric department came in for a good deal of criticism at the meeting of No. 3 committee last night. Ald. Mitchell started the discussion when he asked why it was that lights which the council had put up on Hyman street some weeks ago were not yet in use. No one knew, and Ald Mitchell moved that Engineer Gaultz be instructed to prepare a report immediately and have it ready for the next council meeting. This carried.

Ald. Mitchell then wanted to know why it was that the lights on the side streets of the city were in such a poor condition. The commissioners, he said, had agreed to change the lights three times a year.

"We're paying them a year," he said, "for doing it, and they are not carrying out what they agreed. We are not getting within 40 per cent of the current that we ought to get from them. The lights at 10 per cent of the crossings and along the streets are in such a filthy condition that it is positively dangerous to travel on some streets. You can't see if any one is coming. We should get 25 per cent more brilliant than we are getting. I know where I can get a contract tomorrow for lighting London for \$7,000 better than it is lighted now."

Ald. Tancock thought the trouble with the lights now was that the thick foliage on the trees prevented the glow from being thrown very far. It would be all right when the leaves are gone, he declared.

Firemen in Parade

The matter of purchasing an auto for the fire chief came up, and the chief will go into the details shortly, as he explained that he expected to get some information at the fire chiefs' convention he will attend shortly. It was decided to allow the fire department to take part in the parade on Labor Day.

PLAIN TALK FROM A TEACHER

Boys Are Patted Too Much by Parents—Smoking Is Damaging to Manliness.

London, Aug. 30.—The half-fellow-well-met spirit which is now the rule between father and son yesterday afternoon, as reported by Dr. Rendall, the retiring headmaster of Charterhouse, "it places both," he said, "on a false equality, which is destructive of all discipline."

"Bullying has been replaced in the public schools by a false equality, which is almost worse than bullying, which is a birth in the home, and is partly due to the growth of wealth. At home boys are indulged, and indulged, and their slightest ailment is unduly magnified. Damaging, too, to manliness and health is the way in which either schoolboys or men are encouraged to smoke. Fathers offer their sons cigarettes after dinner and press cigars into their hands as they leave Waterloo at the end of the holidays."

Games Dr. Rendall believes are lessons by developing a spirit of keenness, and generally find the boys at Charterhouse, he said, "duller and less attentive on Monday morning after their Sunday rest than on other days when they have had plenty of sport the day before."

Discussing the don't care boy, described by F. S. Jackson at Leeds Grammar School as the boy who, being unable to concentrate on a game "clucked" about soon and whose habit of chuckling stuck to him in after life, J. A. Johnson, headmaster of Highgate School, said: "This type of boy has become a rarity. He is seldom ever encountered at boarding schools. At day schools boys who live under the ever-present influence of excessive home luxuries and a little mollycoddling, perhaps, sometimes show a tendency to slacken at games. Slackness on the field may arise from an inborn inactivity to games or from badness. If it is due to the latter, the boy may possibly slack all through life."

Beaujolais district is satisfied, although the young vines are suffering from the drought. The Midi hopes to gather its grapes at the end of this month. The cochyliis has done much harm, but certain parts of the Gard and Hérault Departments promise magnificent harvests. The Bordeaux district has also suffered greatly from the cochyliis, but Bergerac reckons on a yield three as great as last year. Both Charente Departments and the districts around Tours and Saumur report favorably of the appearance of their vineyards.

KING AND BLAIN MEET

Will Come Together on the Same Platform at Berlin.

Berlin, Ont., Aug. 30.—Mr. Blain, of Peel, is still anxious to meet Hon. Mackenzie King on the platform; he will have the opportunity, as Mr. King has written inviting him to be present and speak at the mass meeting here on Saturday night, when the inside history of the Grand Trunk strike is to be given, and reciprocity explained by Mr. King in his relationship to the workingman.

CAT AND DOG CHUMS.

When my dog was a puppy I got a little kitten to keep him company. They got to be good friends, but as they got older the cat seemed to think she could take care of herself.

1,500,000,000 BOND SALES ANNUALLY.

In round numbers \$1,500,000,000 of American bonds are marketed every year and almost all of them pass through the hands of American bond houses.

Contemplate!

Do not weigh anything in a second, but take a second thought when a druggist or dealer asks you to accept a substitute for Dr. Fowler's Extract of Wild Strawberry.

This preparation has been on the market for over 65 years, and so far as we know has never yet failed to either relieve or cure the worst cases of DIARRHOEA, DYSENTERY, COLIC, CRAMPS OR PAINS IN THE STOMACH, CHOLERA MORBUS, CHOLERA INFANTUM, SUMMER COMPLAINT, OR ANY LOOSENESS OF THE BOWELS.

No Accident

Nothing ever came by chance. So with good hair, if you would have a nice head of hair, you must give it immediate care and attention.

And yet how often we see women who would otherwise be called beautiful, marred by the neglected appearance and dried up condition of their hair.

Hair must have proper nourishment or die. Parisian Sage is a hair nourisher and one that is fully guaranteed to cure dandruff (the cause of bald spots and falling hair), stop itching of scalp instantly, stop hair falling out and promote a thick and luxuriant growth.
