Minister of Finance Asks Authorization To Settle Claims of the Company.

Ottawa, Feb. 2. - In the House of Commons today Hon. Mr. White bonds required for the mountain sec moved the House into committee tion. to consider a Government motion to authorize the payment out of the consolidated revenue ing of implementing the guarantee port indicate that the Canada Life is fund of sums sufficient to discharge Nichol, of Minnedosa, Man., and not only in a splendid position, but the obligations of the Government as the difference between the net selice that it is steadily advancing in those determined by the judgment of the price of 3 per cent bonds of the directions which mean added strength. Privy Council on the appeal of the Grand Trunk Pacific Railway Com- par, or, in other words, that the Gov-

> In view of the large sum involved the Minister of Finance thought an explanation was due the House. contract was entered into on July 29. 1903, between the Government and perienced very favorable. These are the Grand Trunk Pacific Railway Company, when provision was made for the construction of the National Transcontinental line of railway.

It was to consist of two divisions, The eastern division was to be owned by the Government and to be leased to the Grand Trunk. Under the terms and conditions of the agreemnt the western division was to be owned by the Grand Trunk, and the entire line to as follows: be maintained, equipped and operated well be proud, and the importance of by the Grand Trunk Pacific, Under place where they were most needed, to guarantee the payment of the bonds, principal, and interest, at 3 be \$4,900,000. per cent per annum up to 75 per mates by the Government engineers cent of the cost of construction, this cost not to exceed \$13,000 per mile on the prairie section, and \$30,000 per tel on Durham street has changed mile on the mountain section. The Grand Trunk Company were to guarantee the bonds for an amount sufficient to raise the balance of the money required for the construction of the line. When the agreement was entered into the 3 per cent bonds of the Dominion of Canada stood at about par. Shortly afterwards there was a fall in the stock in common with other low interest-bearing securities, and it was seen that the 3 per cent Grand Trunk Pacific Railway Company's bonds guaranteed by recess. par. A supplementary agreement was entered into the following year to things this agreement removed the \$30,000 a mile for the limit as to

contract was then revised. The \$30,-

implement the "guarantee" so as make the proceeds of the bonds equal to 75 per cent of the cost of the mountain section, and \$13,000 a mil on the prairie section. The Trust Mortgage. In 1905 a trust mortgage was ex-

ecuted over the entire western division securing the bond issue of \$14,000,000 to be guaranteed by the Dominion. A difference of opinion arose between the Government and the Grand Trunk over the word "Implement." The Government contended that implementing a guarantee meant that the G. T. P. Railway Company should issue its bonds to an amount which would realize by sale sufficient to implement, so as to raise

section, and par for the amount of On the other hand the Grand Trunk contended that the true meanwas that the Government should pay G. T. P. issued from time to time and ernment should be directly liable to the G. T. P. Company for an amount sufficient to implement or make up the difference between the net selling price and par; that there was to

the total amount of par to the extent

of \$13,000 per mile on the prairie

mitted to the supreme court, which contentior

issue its bonds further than to the

£5,155,220 Still Required. An appeal was taken to the Privy Council, which reversed the decision of the supreme court. Up to date the amounts of bonds sold had been 1909, \$7,773,495, and in 1911, \$7,856, 119. Taking the par value of these bonds and deducting the amount realized showed the amount due to there would yet have to be issued to complete the mountain section £5, 515,220, which at the rate of the last issue floated would leave the Government's liability \$5,183,617. From these estimates it would be seen, concluded Mr. White, that the total cash contribution to the Grand Trunk Pacific Railway on account of its guarantee of 3 per cent bonds would amount to \$10,080,000.

The resolution having been adopted. a bill based upon it was introduced and read a first time, after House resumed the consideration the grain bill until the six o'clock
