"Another point Mr. Smith raised was that in any case London had won, because, under the rule, they had a four-point lead, and the winning of the game on Thursday night only gave two points to the Toronto team. Technically speaking, they were within their rights in that. Both sides entered a protest from different angles. London were right according to the Spalding rules about the basket that is, technically. Last year's rules called 'for cord or other suitable material.' Under the new Spalding rules it distinctly calls for 'white cord, baskets.' This is highly tachnic cord baskets.' This is highly technical. It struck me a wise stand would be to have the game replayed. Smith answered, 'No; not fair to London; but play two games, one in London

"In this way they might run up here with a good deal of feeling pre-

"I would not consent to this, but suggested that the game be replayed next week in Toronto on the West End 'Y' floor and leave the first game in London as it stood, eliminating the second and third game. They have won two games, and in all fairness, when they have won two games they are entitled to this consideration.

and as both teams have already questioned on technical points the protests by the two teams should be considered. No matter what we think personally we are entitled to consid-er all things from every angle, and the stand taken by Dr. Smith re the cord baskets would justify the London stand. We are not overriding the judgment or wisdom of the L.O.B.A., but are only suggesting. I am sure the Toronto team want to win the

game on the floor itself and do not want to take it as it stands.

"The question of registration of players, brought up by Dr. Smith, does not enter into the question at all. Mr. DeGruchy showed a copy of the letter which he had sent to Mrs. Smallman on March 12. It stated that the protests had been taken up at a meeting of the registration commit-
