RECOGNIZED AT LAST

A few weeks ago the owners of the Star, a paper published in Pasadena, California, handed it over for a day to church workers and others in the city to be edited as a "Charities" number. The gentleman who acted as editor for the day was Rev. Malcolm J. McLeod, a Maritime Province man and a brother-in-law of Mr. A. G. Putnam of Sackville.

The number was a very interesting one in many ways. To mention one of them, Mr. McLeod's editorials would appear most forcibly in it.

The editor of this paper asked me some time ago if some day I would not sit in his sanctum and show the world now things ought to be done. I accepted the offer. Well, I have been here all day. My time is almost up as I pen this line, my hand is almost paralyzed, my brain is befuddled, and I am free to confess that I am right glad to vacate the body spot. Never shall I criticize newspaper men more. I shall not say they are wrong, but they are right. They will have my hearty forebearance henceforth and forever, the hardest worked, poorest paid, poorest paid brain workers on this weary old world of ours.

Fullman feels are among the most effective of the last, the working up.

MR. CROCKETT'S WAY

For three or four hours in the House of Commons yesterday Mr. O. S. Crockett relieved his stock of what the Toronto Globe living described as "grocery gossip." His theme was Mr. Richard O'Leary's Richmond wharf, out of the purchase of which he has long but vainly endeavored to manufacture a scandal. The member for York was allowed to proceed without interruption for some time on the safe theory that he would hang himself if given time enough. At length he made a statement intimating that the wharf transaction was in some sense a corrupt one and that the Minister of Public Works had been concerned in it. Then the Minister of Public Works cooled the "monomaniac" as with a bucket of water by challenging him to make a charge on his responsibility as a member of the House.

The simple gasp of the excited young man from York county, who would prefer no charge, that would mean an investigation and a trial for evidence to substantiate his accusation. Knowing there is no such evidence and knowing too that any such investigation must result in standing him as a scoundrel or worse, Mr. Crockett declined the Minister's challenge. Of course the House and the country know Mr. Crockett for what he is, a mad and cowardly "reformer" seeking notoriety through

You Can Afford to use 40c. Tea Just as Well as 30c. Tea if You Use 40c. Red Rose

A pound of 40c. Red Rose goes further than any 30c. or 35c. tea and it is distinctly superior in quality.

30c. and 35c. Red Rose Teas are good teas, so good that very many people say they want nothing better. But, if they would once try a package of the 40c. Red Rose they would use nothing else in future.

Just think, five cups of 40c. Red Rose Tea will only cost 1c. One lb. makes over 200 cups. Not a question of affording.

It Satisfies

A paint that looks and wears well is bound to attract the attention and favorable comments of your next door neighbor—just as paint that fades, peels, and chinks off in a few months is bound to attract their attention and condemnation as well.

Martin-Senour Paint 100% Pure

Meets every requirement of a good paint—it shows its quality in the can and as it flows from the brush, and months afterward there it shines—a testimonial to the honesty and skill of its makers.

The luckless house owner who depends on the flimsy protection afforded by inferior paint, through the use of a cheap adulterated paint, will soon find himself baffled and vanquished.

A house protected by Martin-Senour Paint can enjoy the thousand shrieking voices of the wind, while you listen from the vantage ground of your well shielded home.

A Good Pure Paint, while defending your home, renders you far greater service—it adds greater comfort, health, protection, cleanliness; besides it saves your buildings from empires and decay.

If your dealer cannot supply you, notify us and we will gladly direct you to where our paints are to be had.

Pioneers Pure Paint

Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent side of it. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"

PURITY FLOUR

You can buy as little as a 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks. Also in barrels and half-barrels.

Purity may cost a little more than some flours but you'll find it more than worth the difference. To be genuine, must bear the Purity trade mark.
