Richmond Hall, Sept. 15.

In the circular convening the meeting the Executive Committee, of which ex-Mayor hanning is president, says: "Never in the history of Canada were the situation and outlook of the temperance cause more full of interest than they are to-day. The question of prohibition has been forced upon Farliament, and its advocates will no longer Farliament, and its a

"Two matters will specially claim the attention of the convention: (I) The National Situation. (2) Our Position as a Province.

"The temperance people did not ask for the Prohibition Commission—they did not think it necessary; but now that it has been resolved upon, it is their duty to do all they can to make its investigations as complete and effective as possible. Our Ontario Local Option Law is before the Court of Appeal. If it is sustained, as we confidently hope it will be, we must be prepared to strike boldly at once to bring our Province under its stringent provisions of total prohibition. If it fails, we should at once demand a broader, fuller, and unassa flable measure of prohibition for this Province. We must also further press for all the immediate general prohibitions that we can secure from our Provincial Legislature."

In one or two cases the farmers are beginning to cut now, but the amount cut this week will be small. So far there is no appearance of frost and the grain is filling well. At the time of writing there is every prespect of the largest crop we have ever seen and there is no reason why the yield should not turn out over an average of 25 bushels, which would give us an outturn of 25,000,000 bushels. We do not seem likely to have a frost that will make much difference to the yield now, as if it keeps off for two or three days the berry will off for two or three days the berry will

I then tried a second and a third bottle, and now I find my appetite so much restored and stomach strengthened that I can partake of a hearty meal without any of the unpleasantness I formerly experienced."

They find it impossible to learn whether they have failed in one of the subjects or in all, and as the supplemental, is only about a month distant this seems to me a very great injustice.
