The Weekly Monitor.

WEDNESDAY, AUGUST 18th, 1886.

—The Knights of Labor organization has been officially re-declared by the holy see at Rome to be under the papal ban issued against all secret societies in September, 1884. Some doubts existed, it appears, regarding whether or not this society could be classed as a secret institution, and in order to have its position as held by the Romish church clearly defined. Cardinal Taschereau, of Quebec, wrote to the head of the church at Rome, with the result as above noted. As thousands who belong to the Knights of Labor, are Roman Catholics it is probable that the structure of the order will now become somewhat imperilled.

—The visit home of Lord Lansdowne is said to have reference to a settlement of the fisheries dispute. This may or may not be the case, but with all due deference to his Lordship, we consider that our interests in this respect would be better served by some one or the other of the leading politicians of the Canadian Government. His Excellency is an Englishman, and during his short term of office it can scarcely be expected that he can have acquainted himself with the facts sufficiently well to be aware how vitally the Maritime Provinces' people are affected by the fisheries question. Sir Charles Tupper is probably the most capable of any man of the present dominant party to be Canada's representative in negotiations of this character.

—The Canadian *Gazette* says:—

There also seems reason to anticipate a permanent extension of export fruit trade of Canada from the efforts that are now being made. Reports show that the apple crop will be poor this season in Great Britain On the continent accounts from Hamburg, Rouen, St. Malo, and parts of Holland state that the season will be under the average, excepting, perhaps, in Spain and Hungary. The opportunity is therefore considered an exceptionally favorable one to extend the European market for Canadian apples beyond its present limits of London, Liverpool and Glasgow. With this object in view we understand that Mr. C. R. H. Starr of Nova Scotia, who is now in charge of the fruit display at the Exhibition, will shortly visit the principal business centres of the United Kingdom, and endeavor to promote the shipment of the fruit direct to these markets.

It is understood Professor Wm. Saunders, who recently returned to Canada, is making good progress in preparing for the shipment of autumn fruit to the Exhibition for display, and also for the Colonial Market. He is arranging to obtain, from local exhibitions and fairs throughout the Dominion, specimens of the choicest fruit and vegetables for the purpose. Inquiries are also on foot in regard to the cold storage of the fruit during the occasion of transit. An exhibition of the new fruit will, it is hoped, be made about the middle of October, in connection with the show of the Royal Horticultural Society, which is to be held in the Conservatory of the Exhibition, and from that date to the close of the Exhibition it is intended to make a continuous display.

—The desperate riots between Orangemen and Catholics in Belfast, Ireland, still continue. Protestants say the riot is due to the Catholics being so enraged at the defeat of the home rule bill, and to the fact that the police, who are largely Catholics, show favoritism. The Catholics say the trouble was caused by their being insulted by Protestant bands parading the streets playing "Kick the Pope" and "Boyne Water' and other insults. Also they assert the magistrates discriminate unfairly against them.

—The sports of tournament week in Halifax city were very largely attended. In the firemen's sports the prize for the hose reel race, was won by the Windsor team, in the unprecedented time of 2m. 43¼ sec., beating the world's record. The conditions of the race were to run a half mile with the hose cart and 250 feet of hose, lay 200 feet of this hose which had to be uncoupled from that on cart, connected with fire plug and nozzle put on. The success of the Windsor team was due to the extraordinary coolness and dexterity of their coupler. Old firemen said it was the quickest work they had ever seen. The St. Stephen team were nearly as smart, as they were only ¼ a second later. The first prize for this contest was a beautiful silver trumpet and $300 in money, and the second prize $150 in money. The Bangor team made loud boasts before the contest, of their ability to win first prize, but their time was the longest of all being 3m. 04½ sec. The hook and ladder race was one of the most exciting race of the tournament, the conditions being for a team of 10 men to run 200 yards with hand trucks, raise and mount, time being taken when the fireman grasped top rung:—First prize $100, 2nd $50. The New Glasgow hook and ladder company were the winners, their man who mounted the ladder touched the top rung almost as soon as the ladder touched the crossbeam. The Charlottetown men took second prize. The tug of war was another of the interesting sports of the day and was won by the Halifax team. Prize $100.

Several foot races took place, the best being the half mile race, won by a Bangor man named Frey, in 2.02½. He also won in the quarter mile race in 55 seconds. Frey is believed to be a professional runner.

Another hose reel race took place on the second day of the sports, which was similar to the preceeding day, except that instead of ½ mile the distance was only three hundred yards. Dartmouth in this took 1st prize of $100 and Truro second, $50. Windsor came third.

The most imposing and brilliant event of the tournaments was the torch-light parade, on Thursday night. The night was beautifully fine and the side walks of the streets and the windows of the houses along the route of the procession were crowded to their utmost capacity. Six bands played constantly and along the whole route decorations of the most unique and brilliant descriptions were profusely displayed. The *Chronicle* says:—

"The grandeur of the display surpassed the most enthusiastic anticipations of the public. Great cheers greeted it in every point—in fact it was one continuous round of uproarious applause from the moment of the start to the moment of the closing. A sea of gleaming torches waved over the marchers' heads, hundreds of torches swung upon their apparatus, colored fires flared up from engine tops and reels, and fireworks were discharged continually from various sections of the long procession."

The Halifax and Queen hotels were one blaze of light. The former had six electric lights, and the latter four, shedding their dazzling rays over the scene. The different engines and hose reels were all got up to represent different scenes, and were really triumphs of art in their way. They were lighted up by wax candles and Chinese lanterns. Upon one of the reels was a representation of the Queen building on fire. The building was made of sheet iron, and along the whole line of route it was kept in a mass of flames. The prize for the best decoration, was given to No. 2 Hose Reel, Emerald, of Halifax, their design being the "Golden Gates Ajar." We take from the *Herald* the following description: "The reel had been removed from the carriage A platform was built in its place on top of which were the "golden gates." The affair was so arranged that it looked the same from a back or front view. From the back and front of the carriage, steps—covered on the side with old gold plush and in the middle with white—led to two golden gates, which were slightly ajar. On the back and front of the gates sat two little girls—Maggie Berrigan and Minnie O'Toole, —dressed in blue and red. The gates were gilded, and on either side were two white pillars entwined with holly. Over the top of the gates was an arch with the inscription "The Golden Gates Ajar." Above this was an angel's head and wing, and around the whole was a large gilt sun, over which, two white birds were so arranged with wires, that they appeared to be flying. On the top of the outside posts, were two more representations of angels. The sides of the base were artistically arranged with glass mirrors in such a way as to make a triple reflection. Between the glass panels was covered with green and old gold plush. The edges and corners were finished with gilt mouldings. Under the whole thing, and out of sight, was a large music box which discoursed sweet melodies. Flowers were strewn profusely over the whole affair."

On Friday and Saturday a military tournament took place, and was much enjoyed by all who witnessed the sports.

Local and Other Matter.

—Schr. Ivica, Longmire, cleared for St. John, this week.

—Mackerel have appeared at Labradordor.

—The ratification of the new extradition treaty has been postponed by the United States Senate for six months.

—We notice by our exchanges that the meteor mentioned in our last issue was seen by persons in various portions of the Province.

—The Island of Anticosti has been sold to a company of English capitalists for $200,000 sterling.

ARRIVED.—The schr. Spring Bird, Mosher, arrived on Monday with a cargo of Old Mine Sydney coal for Capt. H. Fraser. This cargo is said to be of very superior quality, as it is all fresh mined, no bank coal being in the lot.

—The most severe thunder and lightning storm that has occurred in this vicinity during this year took place on Saturday last. A high wind and heavy fall of rain accompanied it. Yesterday another heavy storm of rain prevailed during the morning.

REMOVAL.—To accommodate his large and increasing trade, Mr. A. Morrison, the popular tailor of Middleton, is moving into the large commodious store formerly occupied by Mr. S. L. Freeman, where he intends keeping a complete stock.

—The Boston custom house has been admitting canned mackerel from Nova Scotia upon payment of an *ad valorem* duty of 25 per cent. This duty has now been increased to 100 per cent., agreeably to a decision of the treasury department relative to canned meats, and the importers are indignant.

—The Canadian Government have purchased a new cruiser for the fisheries. Her name is the "Yosemite. She was built as a pleasure boat and cost $140,000, but was bought for $50,000. Her maximum speed is 17 knots. She has a formidable reputation already having cut a tug-boat in two and run between the two sections.

—The value of fish imported into the United States for the year ending June 30th, 1886, as we learn from the American *Fish Bureau*, was $3,612,290, against $4,805,635 for the previous year. Of the latter amount only $1,353,138 was dutiable, while for the past year $2,534,645 worth paid duties.

Eastport, Me., Aug. 16.—There was a sad accident here yesterday afternoon. Henry B. Hunt, managing editor of the Eastport *Sentinel*, and son-in-law to Collector Nutt, was drowned while yachting. He was a very exemplary young man and leaves a wife and three children. The accident has cast a gloom over the entire community, as he was widely known and a general favorite. The body was recovered this morning.

Mr. Hunt was a brother-in-law of Mr. F. Nutt, who ran a canning factory in this town about two years ago.—[ED. MON.

—A Grand Bazaar and Tea-meeting also sailing, rowing and foot races, will be held at the Garrison grounds, Annapolis, Thursday, September 2nd, 1886. Running race, 200 yds., entry 25 cts., prize $2.00. High jump, entry 25 cts., prize $1.50. Long jump running), entry 25 cts., prize $1.50. Throwing hammer, entry 25 cts., prize $2.00. Rowing race, 2 pair oars, entry $1.00, prize $5.00. Sailing, entry $1.00, prize $8.00.

F. C. WHITMAN,
3i. Secretary.

—There never has been such an influx of American tourists throughout our Lower Provinces as at the present season. The hotels have been taxed to their utmost for accommodations. A great portion of this traffic has been done by the International S. S. Co., which has had a series of four steamers per week, to and from the provinces, and have run full, up to the present time. These magnificent boats are too well known to need any comment. One of the features of this line is the Saturday night steamer, which leaves St. John at 8.00, p. m., for Boston direct. This is very popular, not only with business men, but with summer tourists returning home. The regular trips of the steamers, viz: Monday, Wednesday and Friday from St. John, and also the direct steamer from Annapolis every Tuesday, for Boston, will remain in force throughout the season.

—Sailors are very scarce in St. John at present. Last week eight square-rigged vessels cleared at that port, and much difficulty was experienced in procuring crews. Two of the vessels were obliged to anchor at the island until men were found for them. "Everything in the shape of a sailor," said a boarding-master to a *Globe* reporter, "has been shipped." The scarcity of seamen, however, has not advanced the wages.

Apple Report.

MONUMENT BUILDINGS,
LONDON, E. C. Aug. 5th, 1886.

DEAR SIR.—We now have the pleasure to send you our annual report of the apple crop on this side.

SCOTLAND.—In almost every county the crop is under an average one, and in one or two places almost a total failure.

ENGLAND—NORTHERN COUNTIES.—Reported crop under an average one. *Midland Counties*—A few counties expect fair crops, but the majority are below the average. *Eastern Counties*.—A small crop, generally under average. *Southern Counties*.—More counties report under than average crops. *Western Counties*.—Worcester, Gloucester and Somerset, good crops; the other counties under an average.

WALES.—Generally under average.

ROTTERDAM.—Reports crop of apples is middling; quality good.

ANTWERP.—Crop of stripe apples good. Double Bells, the apples most depended on, a small crop. Late winter apples also were short.

HAMBURG.—Expect a medium crop of all sorts of summer apples, but of winter apples only a small crop, including that of Austria.

Yours truly,
JOHN S. TOWNSEND & Co.

PERSONAL.—Hon. Attorney General Longley arrived in town last Saturday, and remained until yesterday.

—Annapolis is preparing for a good time on the 2nd of September. Sailing races, rowing races and Scotch games will be features of the day, while the ladies' of St. Luke's congregation will hold a general bazaar and tea meeting.

—The railings of the passenger bridge over the river at this town, are in a decidedly unsafe condition, and should be repaired at once.

WANTED IMMEDIATELY.—One Coat Maker and one Pant and Vest Maker. Steady work and good pay will be given. A. J. MORRISON, Merchant Tailor, Middleton. 1i

—An Excursion will take place on Monday, 23rd inst., from Kentville and intermediate stations, to Digby and Bear-River. Special train will leave Bridgetown at 8.20, a. m., railway time. Fare 75 cents. See handbills.

—The English war department has succeeded in making a cannon which cost $1,000,000, and uses $1,000 worth of ammunition every time it is fired.

—The property formerly owned by the late Lawrence Delap was sold at auction last week, to close the estate. It brought the sum of $2403 and was purchased by Elias Pigott of this town. —*Spectator*.

—Self Sealers, at Shipley's. 1i

—Mr. Alonzo Daniels, of Paradise, handed us the other day, a small branch from a crab apple tree on which were growing three blossoms in full bloom and two apples.

Mr. Geo. Hoyt, of this town has in front of his residence, an English Japonica which is in full bloom for the second time this season. We understand that it is usual for the japonica to bloom twice in the year in England but we never heard of it doing so before in this country.

HOW TO DETECT THEM.—Mr. John A. Strathie, manager of the Barrie branch of the Bank at Toronto, says that "You can detect the forged $10 bills of the Canadian Bank of Commerce, now in circulation, as follows: The forgery has a yellow appearance; the shading on the green is much lighter than in the original; the large ten in green letters is too high on the paper, running into the coat of arms instead of being immediately under it." If you are in doubt get endorsement of the party.

—John Lockett has just opened 3 cases of Ladies' and Misses French Kid and Oil Goat Boots, the newest Styles and the best value in the market. 1i

—C. C. Wilson, of Kingston, belongs to a family who can boast of longevity. The family consists of ten members who are all living, the youngest being 53 years of age. The added ages of the ten are 700 years. All living in Kings county and in the township of Aylesford.

—Mrs. Moses Robinson who with Thomas L. Smith is under arrest at Somerville, Mass., for poisoning her children, is believed to have seven persons on her list of victims. Mrs. Robinson and her sister, Mrs. Freeman, who is dead, are natives of St. John N. B. Mr. Freeman is assumed to have been poisoned by his sister-in-law.

—Thompson & Shaffner's Old Sydney Mine Coal will arrive about the middle of September. 1i

DIMINUTIVE MAIL MATTER.—The postal service at Liverpool, England, recently had an experience which if often repeated, would prove the reverse of amusing. Some one whose ingenuity or economy was searching for new fields wrote a message of twenty-six words on the back of a two cent stamp, which was duly posted and delivered. This success led to a second experiment and then a third. But on the last occasion, a one cent stamp was chosen and was accordingly held as an insufficiently prepaid letter.

—Porcelain Kettles, at Shipley's. 1i

—Last Friday night an exceedingly interesting entertainment was given by Miss Magee, at Temperance Hall. The audience were delighted with the programme offered and with the manner in which the recitations were given. Miss Magee's style is devoid of that extravagance of manner and gesture which many persons think indispensible. Pleasant in voice, manner and appearance, she is likely to become a favorite with the public. —*Digby Courier*.

Miss Magee is a native of Meivern Square, in this County.—[ED. MON.

A MISTAKEN WIFE.—As a young Guelph druggist was proceeding homeward one night recently a woman implored him to help her home with her husband, who was lying inside a garden fence helplessly drunk. The young man was good of heart, so consented, and after infinite trouble succeeded in getting the inebriate home as was supposed. But on bringing a candle the woman discovered that the man was not her husband after all. The real husband afterwards came home sober. —*Toronto Globe*.

AN OLD COIN.—Mr. John A. Watson, of this city, has received from Mr. Robert Morris, post laureate of the Masonic fraternity of the State of New York, a small coin picked up by him at Gaza, when in the Holy Land. The coin is about the size of a Canadian 5-cent piece and appears to be of copper. Mr. Watson states that it is of the period of Constantine the Great, A. D. 330. He prizes the article highly, not only on account of the giver but by reason of its age. —*Telegraph*.

A PATENT CASH BOX.—A very ingenious cash box is in operation at Messrs. J. & A. McMillan's bookstore. It is at once a cash box and a record book. The money is contained in drawers. To use the box, a slide is pulled which raises to the view of the purchaser the amount of his purchase. If he has given the clerk a five-dollar bill and his purchase is three dollars, the three dollars are indicated by the machinery, the drawers are opened and the change is taken out, the amount of the purchase being indicated inside on a roll in a compartment, the key of which is kept at the office. At night the money in the drawers should correspond with the amount indicated on the rolls. The box attracts a great deal of attention on account of its ingenuity and its automatic capacity.—*St. John Globe*.

MONTREAL, Aug. 10.—A meeting of the cotton manufacturers of Canada was held here yesterday, when every factory in the country, except Gibson's cloth mills, New Brunswick, was represented. Committees were appointed to fix the prices of grey cotton, white cotton, colored cotton, dyed colored cotton and yarn. A scale of prices was adopted and other arrangements made which were deemed satisfactory to the trade. It is understood the advance is not to be very serious, from 5 to 10 per cent. being spoken of. "What the mills want," said one of the manufacturers to a reporter, "is uniformity, so that they will not be cutting each other's throats right along, as they have been doing."

LATER.—At the cotton manufacturers' association a minimum price of 21 cents was fixed for grey cloth. The following prices have been fixed for sheeting; plain, 25 cents per lb.; twilled, 27 cents; drills, 25 cents; ducks, 24 cents per lb.

NOTICE.—All parties found trespassing upon the cranberry grounds on my premises will be prosecuted to the furthest extent of the law.

S. FITZRANDOLPH.

A Discovery.

(From the Reading Daily Eagle.)

Onions inhaled causes sleep, rest and repose. The soldier on his march and the exhausted iron worker get greater strength from eating the onion. Tie a fresh onion around the neck and bruise it to make its odor thorough, and you secure sound sleep from its nightly inhalation. DANIEL R. CLYMER,
Ex-Mayor of Reading, Pensilvanie,
United States of North America.

BOSTON CORRESPONDENCE.

CORRECTION.

In my account of the Century plant, (MONTON, Aug. 4th,) the height of the main stalk was said to be two feet, but it should have been given as fifteen feet. I do not find any fault—perhaps I made the mistake myself, and I am not disposed to lay my mistakes at the door of the printer's devil, nor my sins at the door of any other devil, but in justice to the century plant itself I want that mistake corrected. A growth of only two feet in one hundred years would indicate entirely too much loafing on the part of the agave, and besides, a loss of thirteen feet in height detracts considerable from the dignity of a centenarian.

LABOR TROUBLES.

The men have returned to their old places in J. P. Squires' pork-packing factory, at Cambridgeport. All honor is due to the Catholic priest and the Mayor of Cambridge, for it was only by the personal intercession of these two dignitaries between Squires and his employes, that the difficulty has been so happily terminated. There are also favorable indications of a settlement of the labor troubles among the leather workers of Salem and Peabody.

HANLAN AGAIN.

There are yet plenty of sporting men who are willing to back Hanlan against any oarsman on this round old world, and the women just think he is a daisy. At least that is how we mildly interpret their public expressions of admiration for the ex-champion. He has again come to the front by defeating Hosmer, McKay and Ten Eyck, with ease, in a three mile race, at Nantasket, on Monday the 6th inst. The following extracts are from the Boston *Globe's* account of his progress through the crowds of his admirers:—

BEFORE THE RACE.

Hanlan was the first of the quarter to start for the beach, an eighth of a mile away, with his little craft, and as he passed along the road he was the recipient of a most flattering reception. Hosmer and Ten Eyck followed soon after, and to them was accorded a warm welcome, while McKay was the cynosure of all eyes, and the people, not failing to recognize in him the dangerous competitor of Hanlan, hailed him with heert and hand.

Hanlan's progress to the beach was an ovation such as he has seldom received in his life. Men uncovered their heads, while they shouted themselves hoarse. The ladies, young and old, waved aloft their handkerchiefs, and probably as handsome a compliment as was ever paid an athlete in the world was tendered the ex-champion as he passed the Rockland Cafe. Young women there wore white and blue, his colors, in knots upon their breasts. He reached the shore with difficulty, but without mishap, and launching his shell, jumped into her and rowed, amid the plaudits of 15,000 spectators, toward the referee's tug. Hosmer, Ten Eyck and McKay followed.

AFTER THE RACE.

His reception on his journey to the race course had been a grand one, but the ovation that awaited him completely overshadowed it. Men acted like wild beasts, in their frenzy of delight, and the women were but little better. He got out of his shell in the water and attempted to walk up the beach with it in his hands, but he was prevented, as strong men nearly crushed it into splinters in their endeavor to carry it to the boat-house, and he himself was borne aloft at the head of a procession numbering thousands to the piazza of the hotel Nantasket, where he was cheered and cheered until he spoke in general that I have leased the premises

CORNER OF BUCKINGHAM AND BARRINGTON STREETS, PARKER MARKET BUILDING, where I shall have my AUCTION SALES,

I intend to offer every consignment first at private sale (unless otherwise ordered by the owner), then by having auctions regularly, will give every advantage for the quickest and most profitable sale.

Having been engaged for the past fifteen years in the marketing of Apples and other Country Produce, I have made large connections in the business, and feel confident that I am now better prepared than ever to give satisfaction. Those having farm produce to sell, ship to me, and it will receive my very careful attention.

Thanking my many consignors for their very liberal patronage in the past, and asking for a continuance of their business this season,

I remain,
Your obedient servant,

TENDERS!

TENDERS will be received at the office of the Clerk of the Municipality of Annapolis, up to SATURDAY, 28th AUGUST, next, at noon, for supplying the following articles for the

POOR HOUSE,

of the Municipality, for a term not less than one year:—

SEPARATE TENDER.

Flour, Howland's "A," or an equivalent, per barrel.
Corn Meal, Kiln Dried, per barrel,
Oatmeal, per barrel.

GROCERIES,

SEPARATE TENDER.

Tea, per pound, Pepper, per lb.
Brown Sugar, per pound, Candles, per lb.
Molasses, per gallon, Kerosene, per gal.
Salt, Liverpool, per bag. Soap, per lb.
Salt, Table, per bag.

SEPARATE TENDER.

40 Cords Merchantable Hard Wood, delivered at the Alms House.

In case the tender of any party residing out of Bridgetown be accepted, the articles embraced in this tender, are to be delivered and accepted at Bridgetown Station prepaid. And, in case the tender of parties in Bridgetown be accepted, the articles embraced in their tender are to be delivered and accepted at their place of business. The committee do not bind themselves to accept the lowest or any tender, and all articles furnished to be subject to the inspection of the undersigned Committee who will return all articles not up to the standard agreed to be furnished, or of the quality agreed to be supplied, to the party whose tender is accepted at the tender-er's expense.

ALFRED VIDITO,
S. E. BENT,
WM. H. YOUNG,
Committee on Tenders and Public Property.

Bridgetown, July 31st, 1886.
