

OIL BEARINGS ONCE IN 925 ACRES

Here's a test that proves the bearings of our discs in this **Champion Disc Drill** to be dust-proof. We ran a disc surrounded by sand under heavy pressure for many hours and sowed an equivalent of 1,850 acres. In that time we oiled the bearings only twice. This test will prove true on every disc-drill ball-bearing we send out. It assures economy in horse-flesh; ease and accuracy in adjustment. We have shown below a right and left view of these bearings, as well as the boxes containing the balls. This valuable feature is one peculiar to the **Champion Disc Drill**. The indexes tell accurately just how much you are sowing; the force feed neither mashes nor cracks the seed; the rows are 6 inches apart.

IT'S EASY TO KNOW HOW MUCH YOU SOW

There's a lasting pleasure about owning a **Champion Disc Drill**—it's satisfactory. You'll always be glad you put your money in it. We make a great variety of Disc, Shoe and Hoe Drills from 10-row to 20-row machines. Catalog, "T" and our "Farmer's Ready Reckoner" are both free. Our agent will show you these machines, and courteously answer all questions.
