

... which
incomparably
administration of

SMITH (Smith)

... instantly diminishes cough, augments
secretions, dispels oppressive sense of
... restores regular, pain-free respiration and
... reduces inflammation of the air passages.

The marked analgesic, antispasmodic, balsamic,
expectorant, mucus-modifying and inflammation-
allaying properties of **GLYCO-HEROIN (SMITH)**
explain the curative action of the Preparation
in the treatment of

**Coughs, Bronchitis, Pneumonia,
Laryngitis, Pulmonary Phthisis,
Asthma, Whooping Cough**

and the various disorders of the breathing passages.

GLYCO-HEROIN (SMITH) is admittedly the
ideal heroin product. It is superior to preparations
containing codeine or morphine, in that it is
vastly more potent and does not beget the
bye-effects common to those drugs.

Dose.— The adult dose is one teaspoonful, repeated
every two or three hours. For Children of more than three
years of age, the dose is from five to ten drops.

Samples and exhaustive literature bearing upon the preparation
will be sent, post paid, on request

MARTIN H. SMITH COMPANY.
