A CURE FOR DANDRUFF.—Dr. A. J. Harrison, of Bristol, recommends the following salve for dandruff:

Caustic potash,	8 grains.
Phenic acid,	24 grains.
Lanolin,	aa 3 jv M.
Cocoonut oil,	

This preparation should be rubbed into the scalp morning and evening. Complete cure is usually effected in one to three months.—Le Progres Med.

SEA FOAM FOR THE HAIR.

We take the following formula from the Druggists' Circular.

Ammonia water,	2 drs.
Cologne water,	2 drs.
Alcohol,	4 ozs.
Water,	4 ozs.

Numerous formulas are extant for this preparation, but the above is typical of them all, the essential features appearing to be a volatile alkali, so that any excess will evaporate, rendering subsequent washing unnecessary, and an agreeable perfume in combination with diluted alcohol.

Some of the formulas contain a relatively small proportion of potassium carbonate, as in the following:

Ammonium carbonate,	2 drs.
Potassium carbonate,	10 grs.
Oil of bay leaves,	20 mins.
Oil of clove,	2 mins.
Alcohol,	7 ozs.
Water,	9 ozs.

Mix the oils with the alcohol, dissolve the carbonates in the water and mix the two solutions slowly.

MENTHOL CATARRH SNUFF.

The German chemists are now selling the above very freely in small 1s. boxes containing about 1 oz. and the article is said to be very effectual.

LAUNDRY INDELIBLE INK.—A lasting black ink, particularly excellent for cotton and linen goods, the Nat. Druggist says may be prepared after the following formula:

Nitrate of Silver,	6 parts.
Sodium bicarbonate,	9 "
Tartaric acid,	2 "
Ammonia water, strongest	12 "
Gum arabic, powdered	5 "
Water,	q. s.

Dissolve the silver nitrate and sodium bicarb. separately in distilled water, and mix the solutions. Filter and wash the precipitate on the filter until the filtrate gives no reaction with hydrochloric acid. Rub up the pasty precipitate with the tartaric acid dissolved in the ammonia. Dissolve the gum arabic in sufficient water and add to the solution, and finally add sufficient water to bring the whole up to thirty-five parts. Write with a clean quill or glass pen.

"How's your stock?"

The season during which Cold in the Head and Catarrh are most prevalent is now upon us, and every druggist in the land should have upon his shelves a liberal supply of **NASAL BALM**, and should, on no account, during the Fall, Winter and Spring months, allow himself to be without it.

NASAL BALM

Is the only certain and speedy cure for Cold in the Head and Catarrh in all its stages ever placed before the public. This may seem a strong assertion, but it is backed by hundreds of testimonials in our possession, and is further proved by the rapidly increasing sale with which it is meeting in all parts of the Dominion.

NASAL BALM is one of the best advertised preparations in the market, and is this season being more largely advertised than ever before. Its merits are now being placed before the public through the medium of nearly **FOUR HUNDRED NEWSPAPERS.** Circulars, dodgers, pamphlets and advertising novelties are being constantly scattered broadcast over the country, and these must inevitably create a greater demand this season for Nasal Balm than ever before. Under the circumstances the proprietors feel warranted in asking, **How is your Stock?** Have you a supply on hand to meet this demand? If not, place an order with your wholesale dealer at once.

CAUTION—The trade is cautioned to beware of parties offering remedies in imitation of **NASAL BALM**, or offering containers for putting up such imitations. Our design, name and trademark are registered, and we are determined to protect our rights in the future, as in the past, and will rigorously prosecute all parties trading in such imitations or infringements. **NASAL BALM** can be had of all wholesale dealers, and you will find it to your interest to order your supply at once.
