

Questions

officer and the director of admission services who recommend appointments to the medical executive. The appointments are then approved by the medical advisory board. Each appointee must hold a license to practise in the province of Quebec. In addition, those holding specialists' appointments must hold a specialists' certificate from the Quebec College of Physicians and Surgeons and from the Royal College of Physicians and Surgeons. All but three of the consulting staff hold teaching appointments at either McGill University or Université de Montréal. Admission to the indoor consulting staff usually requires fellowship in the specialty concerned.

4. Correspondence between veterans and physicians is always through the medical administrative staff and in each case it is in the language employed by the veteran.

	Total staff	French speaking staff
