

Though I work during the day I would endeavor to call for it at the time you would desire for me to do so. May be then you would truly kindly suggest the names of one or more honest and enterprising publishers that could publish the "work," for sale internationally.

I'm an elderly man well on in years, being financially poor. A big sale of the "work," would greatly help my sister, brother, myself and would prove of essential importance to humanity.

Yours Very Respectfully

J. H. H. Dixon
