

INDEX.

PAGE.	PAGE.		
Blood Circulation of.....	186	Cerebellum Function of.....	280
Changes of in respiration	218	Not the organ of sexual in-	
Bone	62	stinct.....	281
Appearance and properties of..	63	Cerebrum	281
Chemical Constituents of.....	63	Average weight of.....	281
Structure of.....	63	Structure of.....	282
Haversian canals of.....	64	Convolutions of.....	282
Lacunæ and canaliculi of.....	65	Sulci of.....	283
Articular lamella of.....	65	Ventricles of.....	284
Development of.....	66	Vascular supply of.....	284
Growth of.....	67	Function of.....	285
Repair of.....	68	Crura cerebri of.....	287
Brain	281	Ceruminous glands.....	102
Average weight of.....	281	Chalaza	331, 329
Structure of.....	282	Chloride of potassium.....	16
Vascular supply of.....	284	Chloride of sodium.....	14
Ventricles of.....	284	Cholesterine	133
Function of, &c.....	285	Chondrine	36
Bronchocele or goitre.....	249	Chorda Dorsalis.....	333
Brown-Séquard on crossed action of			
spinal cord	273	Chorion, formation of.....	335
Brunner's glands.....	92	Choroid.....	311
Bursæ	85	Chyle.....	142
Butter acids.....	241	Molecular base of.....	147
C			
Callus of bone	68	Composition of.....	142
Canaliculi.....	65	Color of, in thoracic duct.....	142
Canal of Petit.....	814	Chylification	128
Capillaries.....	201	Chymification	124
Structure of.....	201	Ciliary Ligament	312
Circulation in.....	202	Muscle	312
Influence of nerves upon.....	203	Processes	311
Rapidity of circulation in	203	Ciliæ	81
Carbonate of lime	17	Growth and motion of	47, 82
Soda	18	Peculiarities of	83
Potassa	18	Rapidity of	204
Cartilage	59	Fetal	205
Appearance and properties of	59	Coagulable lymph	31
Vascular supply of	62	Coffee	111
Temporary	59	Colostrum	241
Permanent	60	Coldblooded animals	221
Articular	60	Coma	296
Costal	60	Compound cell	45
Membraniform	61	Conjugation	327
Cartilagine	36	Corium or cutis vera	96
Casein	34	Cornea	310
Origin and function of	35	Corpora amylacea	20
Cauda Equina	269	Corpora striata	288
Cause of Organization	47	Corpora quadrigemina	288
Cells, history of	39	Corpus luteum	329
Definition of	39	Corpus callosum	289
Variation in shape of	39	Corpuscles of the Blood	153
" size of	39	Origin of	156
Color of	40	Development of	157
Cell wall	41	Coughing	214
Cell contents	42	Crano-spinal axis	252
Cell nuclei	51	Cranial nerves	297
Phenomena of	48	Creatine and creatinine	233
Spontaneous change of	48	Crying	215
Manifestation of life	49	Crystalline lens and capsule	313
Secondary deposit in	42	Cumulus	329
Plastic and metabolic power of	49	Cyanosis	207
Growth, maturity and decay of	50	Cytoblastema	43
Individuality of, lost by	46	Cytogenesis	43
Cerebellum	279	Laws of	43
Structure of	279	Modes of	44
Peduncles of (crura)	280	Conditions necessary to	45
