NEWELL'S Patent Universal Grinder

Is pronounced unrivalled in every respect. It will do
 more work at a less cost than any other Grinding
 Mill ever invented. It will grind Quartz, Flint, Sil-
 phates, Bone, Chemicals, Flora, Cork, Rubber,
 Wheat, Corn, Coffee, Flax Seed, etc. It saves power
 and time. It is useful to Farmers and keepers of large
 stables for grinding feed for their own horses and cattle.
 Corn and cob may be ground with the same facility
 as shelled corn. A cordial invitation is extended to
 all parties to call and see the machine at work, apply
 to

DOMINION GENERAL AGENCY,
26 HOSPITAL ST., Montreal.

Commercial Summary.

THE HARVEST in the vicinity of Clatham,
 N.B., turned out well, and was saved in good
 condition. The hay crop was not above an
 average, but there will be enough.

WILFRED LABILLE, hotelkeeper, at L'Original,
 has for some time past been in difficulty. His
 household effects, furniture, etc., have been sold
 under executions, of which it is reported there
 are others still outstanding and unsatisfied.

LARGE quantities of produce, chiefly barley
 and butter, are brought to Morrisburg markets
 daily. Ready buyers are found at 55c to 60c
 for barley, and 18c to 23c for butter.

BELLEVILLE proposes to issue debentures for
 \$300,000 for 20 years, to cover the floating debt.
 It is thought that debentures for this amount,
 to bear 6 per cent. interest, might easily be dis-
 posed of at a premium.

THE RAILS on the Georgian Bay and Wellin-
 gton branch of the G.T.R. are laid within three
 miles of Mount Forest, and traffic will be
 opened on this branch as soon as the road is
 ballasted.

GRAIN is being freely marketed at Mount
 Forest, Ont., and the farmers, who have, by the
 aid of fine weather, been making good progress
 with their Fall ploughing appear satisfied with
 current prices.

Mr. JAMES WORTHINGTON, contractor for the
 Canada Central extension, says he is confident
 of having this road in running order as far as
 Deux Rivières this Fall. The trestle bridge
 across Bisset's Creek, eighty feet high with
 ninety-five feet span, is about completed. There
 is another bridge in course of construction one
 mile distant over a hole in the side of a moun-
 tain ninety-five feet high, from peak to peak
 the road being 450 feet. It will require 130,000
 cubic yards of filling. This is the greatest ob-
 stacle at present, as the trestle work will not
 be finished for several weeks.
