

- Scapula**, sarcoma of, 228, 231
removal of entire scapula for, 229
- Scarpa's triangle**, ligature of superficial femoral in, 839
- Scarlet fever**, ulceration of throat after, 680
- Scars**, painful or ulcerating, 46
- Schwartz's** antrectomy, 338
method of tendon suture, 95
- Sciatic artery**, ligature of, 836
- Scopolamin** and morphin in anoci-association, 1006
- Screws**, long, in fractures, 921
- Sebaceous** cysts of neck, 646
- Sedillot's** operation on upper lip, by vertical flaps, 500
- Semilunar** cartilage, internal, operation for loose, 892
- Seri-membranous** and semi-tendinosus, division of, 904
- Sepsis**, infusion and, 41
- Septicæmia** and interscapulo-thoracic amputation, 239
infusion in, 36
- Septic** thrombosis, 359
wounds, treatment of, 25
- Sequestrotomy**, 907
early subperiosteal resection, 911
indications for, 907
operation, 908
- Serre's** operation for restoration of lower lip, 493
for restoring one angle of mouth, 500
- Sex**, operations and, 2
- Shock** after interscapulo-thoracic amputation, 238
after operations, 27
and operations on Gasserian ganglion by intracranial route, 380
Anoci-association and, 1006
complicating enucleation of tonsils, 477
Crile's technique in, 1006, 1008
infusion in, 36
kinetic theory of, 1008
post-operative, in children, 1
prevention of, 27, 29, 1006
prolonged, cause of failure after removal of upper jaw, 430
saline solution injections in, 36
symptoms of, 28
treatment of, 29
- Shoulder**, arthrotomy of, 226
dislocation of, chief obstacle to reduction, 213
recurrent, 224
habitual dislocation of, 212
operations on, 187
- Shoulder-joint**, amputation at, 177, 196
arrest of hæmorrhage in, 199
by anterior and posterior flaps, 208
by deltoid flaps, 208, 220
by circular method, 177
by *en raquette* method, 202
by Furneaux-Jordan method, 209
by lateral flaps, 201
by skin flaps, 178
by superior and inferior flaps, 207
by transfixion flaps, 180
for aneurysm, 197
for new growths, 197
indications for, 196
lateral flaps in, 202
- Shoulder-joint**, amputation at, methods of, 198, 201
Spence's method for, 204, 206
disarticulation at, 200
dislocation of, habitual, 212
excision of, 209
by anterior incision, 215
deltoid flap for, 220
indications, 210
Kocher's posterior curved incision for, 218, 220
methods, 215
section of bone in, 220
sub-periosteal resection in, 222
fractures of, comminuted, 223
gunshot injuries of, treatment, 223
- Silk** sutures, sterilisation of, 20
- Sinus**, infected, exposure and treatment of, 359
lateral thrombosis of, 359
- Sinuses**, frontal, operations on, 410
sphenoidal, operations on, 472
- Skey's** amputation, 948
- Skin**, infection of, in operations, 14
preparation of, 16
by antiseptic compresses, 16
by iodine method, 16
for skin-grafting, 43
sterilisation of, methods of, 14, 16
transplantation of, 57
- Skin-grafting**, 34, 42
in injuries of hand, 72
in operations on palm of hand, 85
preparation of patient for, 42
Reverdin's method of, 45
Thiersch's method, 42
Wolfe's method of, 45
- Skull**, condition of, in trephining for epilepsy, 275
foreign bodies fissuring, 253, 288
fractures of, compound depressed, trephining, 250
influence of site and trephining, 253
punctured, trephining in, 252
simple depressed, 251
trephining for, 250, 254
gunshot wounds of, 281, 287
middle or posterior fossa of, opening, 313
osteitis of, 261
osteoplastic flaps, 313
sarcomata of, 245
- Soap**, preparations of, 17
- Sodium** chloride poisoning, 37
- Spastic** paraplegia, congenital operations for, 973
- Spence's** method for amputation at shoulder-joint, 204, 206
- Sphenoidal** sinuses, operations on, 472
- Spina** bifida, causes of failure after radical cure, 987
drainage into tissues, 986
excision of sac, 984
indications for operation, 983
injections with Morton's fluid, 983
risks of removal of nerves, 986
tapping in, 983, 985
- Spinal** accessory nerve, anatomy of, 661
operations on, 661
tuberculous glands of neck and, 643
- Spinal** analgesia, 1002, 1004
