

A Miracle

When a person gets something for nothing that is a miracle.

In these days of gradually advancing prices, it is impossible to find such a thing.

The wise man knows that it is infinitely better to stick with the tried and true merchandise than to waste valuable time in looking for what is supposed to be, but is not.

The claims we make in favor of HICKEY CLOTHES are always "founded on facts."

Be one of the wise ones who purchase here daily their every need in clothes or haberdashery.

Economy is essential.

MARITIME SOLDIERS IN SUCCESSFUL RAID

Nova Scotia and New Brunswick Men at Neuville-St. Vitasse.

RELUCTANT TO FIGHT

Germans Beat Hasty Retreat Before Oncoming Canadians.

Canadian Army Headquarters, May 9.—Early yesterday morning strong raiding parties of Nova Scotia and New Brunswick troops, entering the enemy outpost line at Neuville-St. Vitasse Village, inflicted many casualties on the Boche, and in addition, captured some prisoners and two machine guns. They retired after a successful operation with very slight losses.

While the forces to the right and left of the raiders provided artillery demonstrations, which increased the confusion of the enemy and distracted some of his fire, our men, under cover of an intense shrapnel barrage from our field artillery, supported by our heavies and Stokes and machine guns, advanced against the enemy outpost line in seven parties.

The raid, which was carried out at 3 o'clock, with only a few to break the intense blackness, and with the ground deep in mud from the heavy rains, was disappointing in only one feature—the reluctance of the enemy to fight. Save in only a few instances, the Boche left his outpost line and made a hasty retreat for the rear.

Over Muddy Ground. Our men struggled over the muddy ground. Progress was slow but sure. The first party, after advancing one hundred and fifty yards, was held up by wire which it was unable to cut completely, when our signal to retire sounded. Another party gained the support line, but the enemy had made a hurried retreat. A third party found two dead Boches, but no live ones. The next group had better success, encountering a hostile machine gun post with a garrison of three men they rushed it. All the Germans in it were killed by the same Canadian, who had been two and shot the third. The machine gun was brought back to our lines. This party continued to advance further into the village, where it met a strong enemy party in a well-wired position.

A hot fight followed, in which bombs were freely exchanged. In a short time no fewer than twelve Boche hits with bombs were registered against the enemy. The officer in charge of one of the parties went some distance into the village, but all he saw was one Boche running furiously.

Near the Beaurains-Neuville-St. Vitasse road two enemy garrisons offered a stout resistance until all were killed and we had captured their machine guns. All the other posts ran on the approach of our other raiding parties. Two prisoners taken were found hiding in shell holes.

Eight minutes after they had moved to attack our men withdrew, having accomplished the end desired, which was to secure identifications.

ROWELL MAKES DENIAL OF STEVENS CHARGES

Ottawa, May 9.—Hon. N. W. Rowell, at the meeting this morning of the house committee on pensions, emphatically denied that a letter from H. H. Stevens, member for Vancouver Centre, protesting against the pension awarded Col. R. H. Labatt, a member of the board of pension commissioners, had been placed on the record of the committee without first being read to the members. He also denied that he had made the letter public, and stated that the secretary of the committee, in whose charge the letter had been since it was placed on file, had not given out any of the details contained in it.

Mr. Stevens' letter also made reference to the relationship of Col. Labatt to Major-General Mewburn and Hon. J. D. Reid, minister of railways and canals, and in reply Mr. Rowell stated that he was not consulted at all and had nothing whatever to do with the officer's appointment to the pension committee. In regard to Major-General Mewburn, Mr. Rowell pointed out that his appointment as minister of militia did not take place until some time after Col. Labatt's appointment.

COUNTER-ATTACK EJECTS GERMANS

Germans Gain Footing of Considerable Width at First.

British Headquarters in France, May 9.—Thruout yesterday the enemy pushed his attack in the direction of the northeastern slopes of Scherpenberg with great determination. At first he made several successive stages of progress, opening with an infantry attack launched at 9.30 o'clock under cover of an intense bombardment. It was directed against the right flank of our northern army and overlapping our junction with the French.

An hour later, after throwing in several waves of assault troops, the Germans gained a footing in our front line of considerable width. Enemy parties penetrated to Klein Vierstraet, and later the French helped to restore our complete possession of this place. Before sunset the Germans fought themselves to a standstill, having suffered very heavily, but had gained ground of some tactical importance in the Ridge Wood, being a distant step towards the coveted point, Dapin Scherpenberg.

Just before dusk we counter-attacked, under cover of a terrific bombardment, and the enemy was forced to yield the ground he had occupied at such cost. By night we had restored the original line practically everywhere, leaving only one or two little pockets of Germans to be mopped up farther south.

The Australians around Morlan-court further improved the line gained by their advances north of the Somme Canal.

DUNLOP Tires SEAL OF QUALITY BICYCLE

Dunlop Means "Original"

When you hear a bicycle owner say his tires are the original, not the imitation, he means that all other wired-on bicycle tires took Dunlop Tires for their model, because Dunlop was first in the field.

The Pneumatic Tire Industry rests on the name "Dunlop." And next in importance to your realizing that fact is the necessity for realizing this one: Dunlop Tires from the first—1894—were made by a patented process.

We found the way to make them right—a way that would impart to them such road mastery, such superiority of toughness and resiliency that they would sell eight times faster than any other make of bicycle tires. Eighty per cent. of all bicycle tires sold in Canada are Dunlop.
