the people in the east have never pro-tested against the abolition of canal dues. Nor did we ask that the I.C.R. should be made free the same as the canals. The total cost of the canal system was about one hundred and seven million dollars; the total cost of the I.C.R. system was about eighty

The I.C.R. system, however, altho not quite paying its way, has not shown us such a material falling off as that indicated by the canals. We know that the canal system and the I.C.R. system are considered as valuable assets, and will never be taken away from the people to go into the heads.

They will not copy the evil example of Ottawa. They know the difference between legitimate increase of remunication, and a game of grab. The Whitney government must work out the period of its engagement with the province on the terms settled when that agreement was made.

Among the old-time saying of "Poor Robin's Almanack," was this: "At Easter let your clothes be new Or else be sure you will it rue.' from those of long ago. To wear some one thing that is new on Easter day is still a matter that is taken for granted. A distinctively designed brooch of pearls from Diamond Hall is especially appropriate for such use. There is a dainty bell-shaped one at \$7.50—and one in lily design with enamel leaves, for \$16.50. Either would form an ideal Easter sift.
