TRADE IN CANADA.

Dun & Co. Report a Smaller Movemen This Week, But the Outlook Cheoring-Manufacturers Very Busy,

Ing—Manufacturers Very Busy,

Montreal wholesale and manufacturing interests have hardly yet recovered from the holiday quietnde of the past formight. The 6th instant is a legal holiday in Quebec, being Epiphany or old Christmas, up to which date many of the factory operatives prolong their New Year's, merry-making, and with a good many wholesale houses the figuring out of the results of the year is still in progress. It is regretable that the New Year should open out so early with reports of trouble among city dry goods and lothing retailers, several of whom in quite an important way of business have made assignments within the past few days, but in other lines of trade matters seem comparatively healthy, and general country collections are fairly well sustained. The wholesale dry goods trade report that the proportion of country payments met on the 4th is a good average. Travelers, who have been mostly home for the holidays, are quickly getting out on their respective routes, and next week will probably see a resumption of activity in wholesale circles to a fair degree. There has been a notable midware in hisseed oil, to the extent of two remts a gallon.

There is nothing of special importance to

a fair degree. There has been a notatic midvance in linseed oil, to the extent of two rents a gallon.

There is nothing of special importance to note in wholesale trade at Toronto this week. Business is quiet, which is usual at this season of the year, but indications point to some activity in the near future. Country stocks are smaller than usual in consequence of the active demand before the Christmas holidays. Manufacturers are kept busy filling orders for spring deliveries. Prices of the leading staples continue firm, with occasional advances in quotations. January payments have been hatter than for several years, and the number of failures comparatively small. The railway traffic is good. During the month of December the gross earnings of the Canadian Pacific were \$2,320,000, an increase of \$397.000 as compared with the corresponding month of 1896. Grand Trunk earnings last month were \$2,186,523, an increase of \$201.781 as compared with December, 1896. There is a moderate sorting-up demand in groceries, dry goods, hardware, leather, boots and shoes, etc., and spring deliveries are likely to be large. There is a lull in the wheat trade owing to lower cables and decline in leading United States markets, but it is likely to be only temporary. Peas are in demand and higher, with sales at 47c at Dutario points.—Daily Bulletin.

First Boat This Year. The schooner Defiance arrived in Toronto haibor on Wednesday afternoon with a load of stone. This beats the record for early arrivals, and in accordance with custom the raptain yesterday received the Harbor Master's sfik hat.

New York, Jan. 6.—E. J. Ratcliffe, the actor recently convicted of wife-beating, was to-day granted a writ of reasonable doubt by Judge Dickey in the Supreme Court, Brooklyn, Ratcliffe was released in \$2500 ball.

New York, Jan. 6.—The managers of the Joint Traffic Association have recommended new commodity rates on coal tar, in bank cars, to be furnished by shippers (empty tanks to be shipped back free), from Hamilton, London and Toronto, Ont., to Jersey City and New York (lighterage limits), at 15c and 16c per 100 pounds respectively.

New York, Jan. 6.—The Evening Post's financial cable from London says: "The stock markets here were good to-day and fairly active, chiefly in the speculative departments, where the features were the boom in Grand Trunks and Canadlan Parising. Were when you want to good and closs." boom in Grand Trunks and Canadian Pa-cifics. Americans were also good and clos-ed at the best. There is more interest here but little business. Berlin, however, is buying Canadian Pacifics and Americans freely. New York Central rose sharply at the close of the publication of the funding scheme. The Paris and Berlin markets were strong.

extremely favorable to higher prices. We think 26c for May just a fair price, and expect to see them sell there in the near future.

Corn was weak early, in sympathy with wheat, and trade very light. There was some pretty good buying on the decline, and when wheat moved up corn followed. The market closed strong at an advance of 1/2c from low point of the day.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day, although the news was calculated to inspire bravery on that side. Cables decidedly weak. Paris especially, and there was considerable selling for foreign account. There was, however, no sign of any relaxation of the grip on cash wheat, and the shorts who are timid under this condition of things do not make good fighters when the markets develop an advancing tendency and run quickly. The news that the change in the market was attributed to was export purchases of 35 loads of wheat at the seaboard in spite of the increased value of cash wheat there. There was a tittle more inquiry for the lower grades of wheat here to-day, and prices were firm at ic to 2c higher. The market looks very firm to-night, and should any encouraging features be presented to-morrow, the upward reaction will be carried further.

Provisions opened weak on-large receipts of hogs. Cudahy brokers sold May ribs. The advance in wheat did not influence provisions much. Market closed heavy.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York: received the following despatch to-day from New York:

A broader and more active stock speculation is attended by a decidedly higher range of values to-day. The improvement was encouraged by indications of approaching case in money rates, the more peaceful outlook in the Chinese question, and the continued evidence of a large traffic on the railroads. Inside knowledge of important developments in soft coal and coke industries is also believed to have stimulated a renewal of buying. Just before the close it was announced that J. P. Morgan & Co. had purchased the control of the New York, Susquehanna and Western Railroad with a view to turning it over to the Erie. The anthracite coal stocks shared fully in the day's strength, and there were advices from the trade of an improvement in demand and prices. Like reports came from quarters interested in the soft coal industry, and this influence was partly credited with the continued activity of Cleveland, Loraine and Wheeling at an advance of over 1 per cent. In the industrials "sugar" was the over-shadowing factor, advancing over 1½ per cent. on fattering intimations as to the extent of the company's earnings last year. The market closed strong and active. Government bonds were ¼ to ½ per cent. higher. Rail-
