CANADIAN PACIFICS AT 90.

Payne Mining Company Stock Rapidly Advanced.

General Electric's Sold up Over Four Points Yesterday, and Montreal Railway Went to 303-Carlton Touched 121—Unlisted Mining Stocks Up—Northern Pacific Strong.

Wednesday Evening, Feb. 15. Canadian securities were again buoyant to-day, a number of issues advancing sharply. Canadian Pacific was once more a feature. London and New York were both very strong on this issue and the demand for the stock gained strength on the Canadian exchanges. On the Toronto exchange 1500 shares were picked up at prices ranging from 80 1/2 to 90 1/2.

In view of the continued increased earnings and the general outlook, C.P.R. is thought by many to be booked for over par within the next few months. This should depend more or less on the growing crops and the general outlook of the country.

General Electric's forged ahead once more, selling 4 1/2 clear points above yesterday's close, in anticipation of the expected good showing at to-day's meeting of the company at Peterboro. The third striking event on yesterday's Canadian exchanges was the steady advance of 2 1/2 points of the company's stock, which was in good demand.

Jumping 20 points, according to the Toronto market, the closing price of the company's stock, which was in good demand, closed at 90 1/2. Cable and Toronto Railways were easier. Crown's Northeast, according to the Montreal Exchange, Montreal Railway and as high as 30 1/2.

In unlisted mining stocks there were further advances to-day. Golden Star jumped 8 points, Minshaba sold up two cents to 35c, and Hammond Reef touched 40c, the highest price on record.

Cables from London to Messrs. A. E. Ames & Co. to-day give the following quotations: G.T.R. 4 1/2, G.T.R. 1st 7 1/2, closing at 7 1/2, and G.T.R. 2nd 5 1/2, closing 5 1/2.

The rapid advance in the price of the stock of the Payne Mining Company on the Toronto and Montreal exchanges is due to the gradual familiarization of the investor public with the record of the mine. On a capitalization of \$2,000,000 the company during 1918 paid \$500,000, or something over 20 per cent in dividends. Should the year's production be 100,000 tons of ore, as is proposed, the company, it is claimed, would be able to increase its net earnings.

Unlabeled mining stocks there were further advances to-day. Golden Star jumped 8 points, Minshaba sold up two cents to 35c, and Hammond Reef touched 40c, the highest price on record.
