This question is of vital interest at this season of the year,

when nearly every newspaper contains reports of one or more deaths from this deadly disease. Prof. J. J. Walsh, M.D., Ph. D., an eminent authority on diseases of the lungs, says that pneumonia is the result of taking cold when the system is

in a run-down condition, and of neglecting to take prompt

means of curing it. The beginning is with a cough, chills and aching of the bones, soreness and tightness in the chest, pain in the lungs, weariness, exhaustion and sleeplessness.

N. L. Steiner the Right Man,

Mayor and officials are very often busy when strangers meriting civic courtesy visit the Hall.

A happy suggestion is being made of a way of serving the city's interests without any change of abousing objection or opposition. It is that ex-Aid. N. L. Steiner and appointed Honorary Commissioner of compeliation. No better choice could be made. Mr. Steiner has all the leisure and accomplishments that such a position would demand. A cultivated German, who speaks four or five languages fluently, he has for the termore a wide circle of acquaintances among civic and fraternal leaders in various cities across the border. The German element will probably preponderate at the Fair, and it would be an excellent thing for Toronto if an honorary Civic Commissioner of German nationality occasionally visited Buffalo. Timber of Board of Control.

The timber of the next Board of Control was being carefully sized up among the aldermen yesterday. One certain name is that of Ald. Urquhart. His fitness is acknowledged on every hand. Ald. Lamb intends to keep off the Works Committee this year. He gave practically all his time to it last year, except for a short holiday in the summer, and very nearly ran his health down. He intends this year to try for the Board of Control. Other names mentioned are Ald. Sheppard, Frame and Graham. But only four can be appointed in addition to the Mayor.
