MUST ABATE THE NUISANCE

Board of Health, Hamilton, Takes Action Against the Freeman Fertilizing Works. Given thirty days to stop it.

An Incurable Addition to Be Made to the House of Refuge.

Hamilton, Sept. 22.—The Board of Health, after numerous postponements, finally, to-night, took action regarding the Freeman fertilizing works on North Wentworth-street. After hearing three expert witnesses on behalf of the company, the board decided to order the firm to abate within 30 days the nuisance at its factory, and, in default, the Provincial Board is to inspect the place and report. The motion to abate the nuisance was made by George Evans, and seconded by J. S. Boothman. All but W. H. Just voted for it.

The witnesses heard to-night were T. S. Arnold, Inspector of the British American Insurance Company, Toronto; H. M. Hill, chemist for the Health Department of Buffalo, and a draftsman from Fryer & Ford's office. The Buffalo chemist told of his experience in the fertilizing business, and in odors. He considers the Freeman plant up-to-date, and he found it operating to-day free from foul smell. Continuing, he said that the odors from the scavenger dump and the sewage disposal works in the vicinity of Freeman's were worse for the health of the residents in the vicinity than Freeman's works.

At tonight's meeting of the Civic Refuge Committee, it was decided to recommend the Council to erect an incinerator on the site of the old asylum.

TO CENTRALIZE CATTLE MARKETS

Continued From Page 1. so in Toronto and Hamilton, perhaps, but in the smaller outside places very little attempt, he thought, was made to utilize the official in the advantage of a concentrated market was made apparent.

Does not Fear Frost. The possibility of the big United States beef trust getting control of the Canadian territory, and the advantage of a concentrated market was made apparent.

Mr. Dryden looked with favor upon the suggestion that a dead meat industry be established in Toronto, for instance. He thought it would be a good thing for the market. Chicago it had worked well, and would work well here.

Raise Choice Cattle. "I wish to repeat," concluded Mr. Dryden, "that cattle raising has a great future here in this country. It is a money-making industry, and every farmer should carefully study it. He is encouraged to raise the choice of cattle. They will be well repaid if they do so, there is a demand for it and they will get their price."

What Others Think. In this connection it is interesting to note what was said by Richard Gibson, a cattle raiser at the Dominion stock show in Toronto last year. That gentleman said: "The reason they pay so much more in Chicago is because they utilize everything. Now, we have no chance with the present stock yards of making any use of the bones. The great packers in Chicago can afford to pay a great deal more per pound because they are absolutely no waste. Mr. Armour stated that if he got 50 cents per head profit for a steer that was almost looked for; his profit was made out of the greatest amount that country can get. Now, if the cattlemen wish to get the very greatest amount they can they must be in connection with some stock yards where everything can be utilized, and then there will be profit."

Farmers Will Get Benefit. To this Mr. Dryden replied: "I understand that Messrs. Swift of Chicago will have a better chance than anyone else to get the benefit of this country. When these outside stock yards are built and equipped I expect they will have a better chance than anyone else to get the benefit of this country. Now, if the cattlemen wish to get the very greatest amount they can they must be in connection with some stock yards where everything can be utilized, and then there will be profit."

Wishes his new dramatization of Dickens' masterpiece, De Wolf Hopper has returned to Toronto after an absence of two years. "Hopper and something new" is a statement sufficient to allure a crowd as in London, especially when it is known that he is surrounded by a strong company. So it was something of a social event, and "Mr. Pickwick" was greeted with a crowd of thousands. The new play is a masterpiece of the drama, and it is not too much to say that the new musical production is a decided hit, and that the City Hall caretaker asks for a rearrangement of his duties, and Aldenburgh, Baird and Kingston will inaugurate.

As the title indicates, the work is based upon the interesting story published in the genesis of the famous author; but, aside from the names in the cast to suggest the characters of Pickwick Papers, minor situations and some of the quaint philosophy of the original drama, the play is a masterpiece of the drama, and it is not too much to say that the new musical production is a decided hit, and that the City Hall caretaker asks for a rearrangement of his duties, and Aldenburgh, Baird and Kingston will inaugurate.
