New Chapter I. O. D. E.

Westminster Chapter of the Imperial Order Daughters of the Empire was formed yesterday, and was largely attended meeting at the home of Mrs. R. W. Prittle, High Park-boulevard. Mrs. Mackenzie Alexander, Miss Catharine Welland Morritt and Miss Arnold of the executive were present. Miss Morritt giving an interesting address.

The officers of the new chapter are: Regent, Mrs. J. A. Ross; vice-regent, Mrs. Prittle; second vice-regent, Mrs. Bryce Hunter; secretary, Miss Edith Hunter; treasurer, Mrs. J. Carhart; standard bearer, Miss Tomlin; secretary for Echoes, Miss Dorothy Campbell.

CONVICTION QUASHED

Not Practising Medicine if Drugs Are Not Given.

Judge Morson yesterday quashed the conviction in the police court of Dr. R. B. Henderson, an osteopathist, for practicing medicine without being a registered practitioner. The complaint against him was made at the instigation of the Ontario Medical Council.

Dr. Henderson appealed against the conviction on Feb. 4, but his honor deferred judgment until the legislature closed, as it was understood that the osteopaths were asking for an act. The conviction was quashed on a judgment of Justice MacMahon, which stated that practicing medicine entailed the giving of drugs for curing or mitigating disease.

To make the meaning of medicine cover the present case, his honor pointed out that the Ontario Medical Council must apply to the legislature.

WIRELESS ON LAKE SUPERIOR.

PORT ARTHUR, March 23.—(Special.)—On the first trip out of Duluth harbor, the Booth steamer Moore, which leaves next Sunday, will carry to Washington Harbor, Isle Royale, a wireless outfit. When this is installed, every point on the lake will be covered and a boat carrying equipment cannot get beyond the reach of communication with land.

Toronto Wins Out.

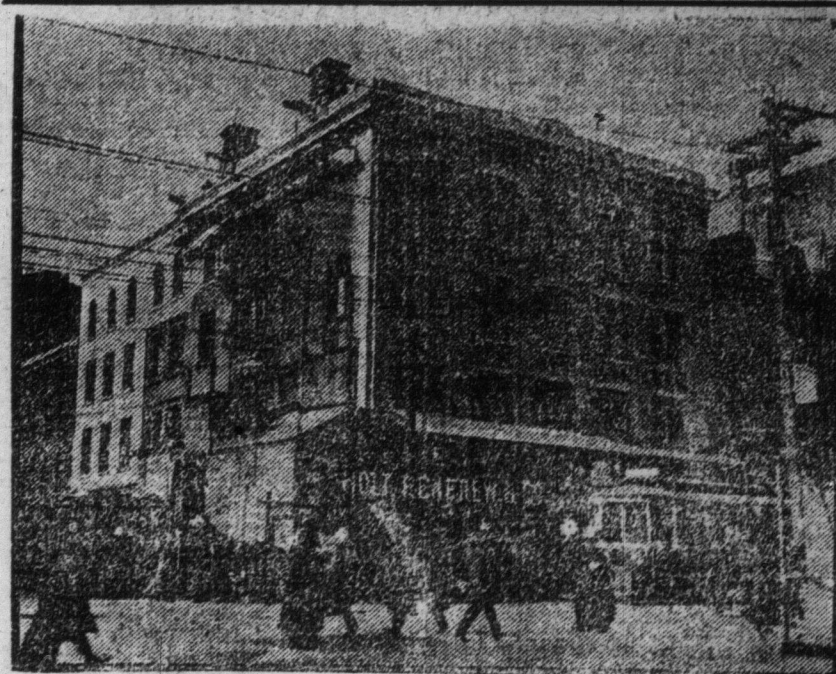

OTTAWA, March 23.—It has been agreed that the Hamilton, Waterloo & Guelph Radial Railway will be given permission to cross over and under highways and easements of the City of Toronto, on plans to be agreed to between the city and the company engineers, the railway board to arbitrate if differences arise.

The company definitely agrees to the proposal of the city that lines are not to parallel streets, it being distinctly understood that the rights of the company as outlined above apply to the "crossing" of streets. Thus the city wins its main contention.

Autos for Postal Delivery.

W. B. Rogers, postmaster, when spoken to last evening regarding a change in the present method of collecting mail from the city boxes, and the adoption of the use of automobiles for this purpose, stated that he had merely heard this as a suggestion and that so far the department were undecided as to what steps would be taken when the present contract for collecting the mails runs out in July.

Realty and Building

THE NEW FRONT OF THE HOLT, RENSHAW BUILDING, YONGE AND ADELAIDE STREETS.

The old Savoy at the northwest corner of Adelaide and Yonge-streets (Richard estate), has been reconstructed as above illustrated for the Holt Renshaw Company. They hope to occupy it in a few weeks. It will be one of the finest stores on Yonge-street, both in the way of fittings and accommodation for buyers and for display.

Everyone likes to read of the good prices obtained for the properties recently bought at the corner of Carlton and Yonge-streets. But these purchases are for a specific purpose, the buying energy of which exhausts itself the moment the desired frontage on the two streets is secured. It is idle, therefore, for owners outside of that restricted area to think that an active demand will soon come their way, and withal spread all over the town. If that were so, Toronto would tumble into a boom like the one that immediately preceded 1890, and which was followed by 14 years of depressed conditions.

Five stores numbered 588 to 596 Yonge-street, between St. Alban's and St. Joseph-streets, belonging to Miss Laura Bolt, have been sold at a price in the neighborhood of \$55,000. The property has a frontage of about 85 feet, with a depth of 100 feet. The price paid averages about \$750 per foot. This transaction, as well as the sale of Sir William Mulock's ten stores yesterday, was engineered by the well-known firm of Robins, Limited.

A report is current of the sale of Nos. 650 and 652 Yonge-street, just south of St. Mary's-street. Both properties have a frontage of about 13 feet, and are assessed for \$4000. The purchase price is said to be \$5500.

According to figures supplied by the assessment department, the block bounded by Yonge, Carlton, Church and Wood-streets contains approximately 5.5 acres, while the block immediately to the north, i.e., Yonge, Wood, Church and Alexander, is 6.5 acres in extent. In round figures the area of the combined blocks is 12 acres.

In the current year of "Construction" the principal Canadian cities show a net increase of 6.07 per cent. The greatest increase was in Saskatoon, where the value represented in building permits jumped from \$2700 in February, 1909, to \$55,500 for the same month in 1910, or 1,955 per cent. increase. Re-

gina follows with \$75,000 in 1909 to \$109,000 in 1910.

Toronto merely topped last year's figures for February, but Hamilton shows an increase of 51 per cent; London a decrease of 71 per cent; Monreal a decrease of 16 per cent, over \$285,399 last year, the total permits for February amounting to \$274,000. Vancouver, B.C., has a gain of 115 per cent. These figures, all things considered, show a healthy state of trade, and the outlook for the coming season is regarded as entirely satisfactory. Cities and towns that have showed remarkable advances in recent years are now feeling the effect of a steady increase, but the net return is in favor of the artisan.

It is understood the large brick residence of the late Robert Gooderham on the corner of Sherbourne and Selby-streets, has been sold for \$15,000 by Mr. B. Charlton. Negotiations have been going on for some time with the administrators of the estate in England. The property is 100 x 234 feet. The building will be extensively remodeled and adapted as an apartment house.

\$100,000 DEAL IN SALT.

SARNIA, March 23.—A transaction involving nearly \$100,000 was completed when the salt plant of the Empire Salt Company passed into the hands of the Cleveland-Sarnia Saw Mills Co. The Empire Salt Co. will construct a larger and more modern plant, and in the meantime have arranged for salt to supply their trade.

VICTIM WAS WATFORD MAN.

WATFORD, March 23.—(Special.)—The man killed in Monday's wreck at Marshalltown, Iowa, was John Hambridge of Watford, Ont. He was on his way home from a trip to Saskatoon, Sask., and was to have stopped at Marshalltown, where a daughter, Mrs. (Rev.) Wise resides. The remains arrived here to-day.

Canadian Art.

The interest the present O. S. A. Exhibition is exciting in Toronto is ample evidence that Canadian art is rapidly making for itself an increased respect among the art lovers of the city. The free exhibitions on Saturday have proved exceptionally popular and another has been arranged for Saturday next, to give the holiday crowds an opportunity of viewing the exhibits. The exhibition continues all next week at the public library building, College and St. George-streets.

Attorney-General Better.

Hon. J. J. Foy, attorney-general, was back at the parliament buildings yesterday, after an absence of nearly three weeks through sickness. He hopes to be well enough to attend the international conference at Ottawa on March 28. Hon. Dr. Pyne expects to be back at his office next week.

Stephen Hunter, a colored inmate inmate of the Delaware State Workhouse, fatally shot two guards and was himself shot three times before overpowered.
