Against Race Track Gambling.

The hope was expressed that never again would race track gambling be permitted to gain a legal foothold in any part of Canada. The race track was regarded as the avenue for the moral ruin of its patrons.

"This war is a great struggle for righteousness, and thank God we are on the right side," said Dr. J. H. Farmer, who addressed the conference on missionary work. "But I do not think it is the most serious thing in which the people are engaged. It is not so serious as the great war of Christ, of which He is leader. Winning the war will not bring paradise to the world, but when Christ's purpose is achieved we will have paradise on earth. And we must mobilize all the forces of the church and humanity for a world conquest."

The action of the federal government in prohibiting race track gambling during the war and the introduction of conscription for Canada by Premier Borden received hearty enders at the closing of the forty-second annual conference of the Toronto Baptist Church last night. Another resolution called upon the Borden Government to introduce legislation for Deminion-wide prohibition and to stop the manufacture and sale of liquor. It was the belief of the conference that in the serious situation confronting Great Britain and her alikes Canadian army at the front, and felt the best method of reinforcing the Canadian army at the front, and felt that there should also be conscription of the material resources of the Dominion.

Discussing prohibition, the conference declared that in the manufacture of, liquor food products, which were essential to the life of the country, were thrown to waste, and that the traffic in liquor ruined the manhood in civil and military life. The members expressed regret that the federal government permitted the continuance of the canteen in the Canadian military camps overseas, and declared that in so doing the Borden cabinet had broken faith with the people. A request that the canteen be closed was embodied in the resolution.
