"GIRL OF THE GOLDEN WEST"

IMPERIAL THEATRE TONIGHT

The Lasky-Belasco photo-dramatic production of "The Girl of the Golden West" at the Imperial tonight and tomorrow will have among its cast of characters such well-known favorites as Mabel Van Buren, Theodore Roberts, House Peters, Anita King and others. The story is an especially powerful one, having to do with a mining town in California in '49. In fact, so good is the literary and dramatic value of the piece that it has been used as the story for a noble grand opera in which Caruso has taken part. A great success, however, has been attained by this story in its purely dramatic form but it remained for moving pictures to give it that wonderful realism possible through the scope of the camera. "The Girl of the Golden West" will create a profound impression in St. John and as it is booked for two days only, intending patrons should see it as early as possible.
