TRADING ACTIVE IN MONTREAL MARKET TODAY

Brazilian and Smelter Again Are Features, With Both Lower

REACTIONARY PRICE MOVE IN WALL ST.

General Electric Drops Three Points To Record Low For Year

MONTREAL, March 24.—Trading on the local exchange was fairly active during the first half hour this morning. Brazilian and Smelters were the most active stocks, the former opening at 10 then dropping to 9 1/2, for a net loss of three-quarters point. Smelters was the weak spot, opening at 20 1/2, an overnight decline of one point, and kept going downward with sales helping to make it 19 1/2, but very little trading was done in this issue.

Other changes included Abitibi, down one point at 7 1/2; Quebec Power down a quarter, at 12 1/2; and Royal Bank up a half at 25 1/2.

NEW YORK, March 24.—Pronounced reactionary price tendencies developed at the opening of today's stock market. General Electric dropped three points to a new record for the year at 89 1/2. In reaction of speculative disappointment over the 1925 report showing smaller earnings than the year before, New 1925 lows were also established by Sears Roebuck, Montgomery Ward, American Can (New), and Coko Cola. Initial losses of a point or more also were recorded by Dupont, American Locomotive and Central Leather preferred.

Morning Stock Letter

NEW YORK, March 24.—The buying in the industrials generally is probably from the shorts and it looks as though stocks were covered easily. There is no buying power in the market. As a rule people who are willing and have the money to buy stocks are holding off to get a clearer line on industry. As yet there is no confirmation to bearish rumors about the let-down in business except in so far as some curtailment in certain operations which may be due to weather conditions. Yesterday there were many rumors of a falling off in orders of mail order houses. This morning the president of Sears Roebuck says his company's March business is 10 per cent ahead of last year. The action of the stock indicates a 10 per cent increase in business and buying power will be held off until stocks are lower than they now are.

Deaths

Mrs. M. A. Fleming
After an illness of several months, Mrs. Margaret A. Fleming, widow of William Fleming, passed away early in the evening of March 23 at her residence, 66, Hazen street. She was a daughter of the late Robert and Margaret Armstrong and her father was a well known wholesale merchant in the city. Her husband was a member of the firm of the Phoenix Foundry in Saint John and prominent among the business men of the city. Throughout her life Mrs. Fleming was a devout member of St. John's (Stone) church. She is survived by one daughter, Miss Grace Fleming, of the staff of the provincial laboratory at the General Public Hospital, and by one brother and two sisters in this city. The funeral will take place on Thursday afternoon from the residence.

Edward Gallagher

HAMPTON, March 23.—Edward Gallagher died this evening at his home in Hampton Village. He leaves one son, Edward, and three daughters, Mrs. Martha Ryan, of Sussex, and Miss Katie and Miss Annie, at home. He has been ill for a few months.

HOUSE APPROVES WEST INDIES PACT

DR. MLAREN ASKS FIGURES OF COST

Robb intimates Cabinet Favors Preference to Fiji Islands Sugar

OTTAWA, March 23.—A resolution to approve the Canada-West Indies trade treaty passed the House of Commons today and a bill based thereon was given first reading.

Discussion occupied practically the whole of the afternoon sitting. Hon. J. A. Robb, Minister of Finance, intimated during the debate that the Government was inclined to favor extension to the Fiji Islands of the sugar preferences provided in the treaty.

C. H. Cahan (Conservative, St. Lawrence) asked the Government to tell the House what would be the cost to Canada of making the treaty effective. He thought the promotion of wider trade between the two dominions was very desirable provided the interests of Canada were properly protected.

ASKS ABOUT COSTS

Mr. Cahan said he was desirous of maintaining "friendly and profitable commercial relations" with the West Indies. Before asking for ratification of the treaty, however, the Minister of Finance should give a "clear and precise statement" of the cost to the country in respect to the new steamship services. The House was certainly entitled to this information. Mr. Cahan understood that the operation of the improved service would entail a capital investment amounting to \$8,000,000.

Dr. Murray MacLaren (Conservative, Saint John-Albert) also wanted to get figures of cost before the bill was finally passed.

Hon. J. A. Robb said that this information would be available at some stage of the bill. At the present moment when the Government was inviting tenders, he did not think too much information should be given out to those who might use it as a hint as to how they might submit figures. He reminded the opposition that the "slipping loads of the world had a way of putting their heads together and deciding how they shall tender and where."

DRUG CLERK FIGHTS TO FOIL HOLD UP

Burly Robber Kicks and Shoots Him But Flees Without Loot

NEW YORK, March 24.—Mario Camoletti of Brooklyn is only five feet three inches tall, but Detective Diptert of the Fourth Avenue Station is ready to testify to his braveries.

Camoletti was alone in a drug store in Brooklyn where he has been employed as a clerk, when a burly man entered, and saying that he had a headache asked for a bottle of medicine. As the clerk started to hand out the bottle, the newcomer drew a pistol.

"Stick up your hands," said the robber. Instead, the clerk grabbed for the pistol and succeeded in getting his hand on it. The pair wrestled and finally the superior strength of the robber told and the clerk was downed. The robber hung Camoletti's head on the tiled floor several times and then gave him a kick in the right eye.

SHOT IN SIDE

The man with the pistol leveled it at the prostrate clerk and fired twice. Camoletti felt a sharp pain in his side. Without waiting to rifle the cash register, the robber ran from the store, leaped into a waiting automobile in which several other men were sitting, and was driven away.

Not long afterwards, Mrs. Marie Berg came in. She found the clerk sitting on the floor rubbing his eye. Detective Diptert was notified. It was not until the arrival of an ambulance man that Camoletti knew that the bullet from the robber's pistol had entered his left side near the neck and had lodged in the right side.

The wounded man was taken to the Kings County Hospital. While his condition was serious it was said that he would recover. It was feared, however, that he might lose the sight of the eye which had been kicked by the hold-up man.

The stone age was a good old age. When man had pep and vim. Each time he wanted a new wife. He aged how to move him.

Friends Are Anxious For World Voyager

PARIS, March 24.—(A.P.)—Parisian sportsmen are alarmed over the safety of Alain J. Gerbault, French tennis player and daring yachtsman, who, sailing alone around the world in a small yawl, is long overdue at Tadid, the largest of the society islands group in the Pacific.

He left the island of Galapagos more than two months ago, and should have reached the Society Island within forty days.

SIR WALTER GILBEY DIVORCED BY WIFE

LONDON, March 23.—A decree of divorce was pronounced against Sir Walter Gilbey, Bart., today because of cruelty and unfaithfulness to his wife, whom he married 42 years ago.

Sir Walter scarcely attempted in the divorce court proceedings to defend his association with another woman for many years, but he fought strenuously against the accusation of cruelty.

"Sir Walter is an honorable man," his counsel exclaimed to the jury. "Not a blow or even abuse was alleged against him."

Lady Gilbey's counsel suggested the causing his wife mental distress affecting her bodily health amounted to legal cruelty on the part of her husband.
