WAS ACTIVE IN SHIPBUILDING IN SAINT JOHN

Thomas Buckley Passes Away After Illness of About Month

Another link between the days of "wooden ships and iron men" and modern Saint John was broken this morning by the death of Thomas Buckley, a life long resident of the North End and one of the most highly respected citizens. Mr. Buckley, since the death of his wife, about two years ago, had been making his home with his daughter, Mrs. A. C. D. Wilson, at Wenworth street, and had been ill only about a month.

He came to this country from Ireland when but a young man and took up his residence in the North End. He became interested in the shipbuilding industry and was one of the best known men in this line. On the decline of the industry he was appointed line stock inspector for this port, a position which he held until 1910.

He is survived by one son, Frank Buckley, of the Minto Coal Co., Hinton, one daughter, Mrs. A. C. D. Wilson, and one nephew, Thomas Buckley, of this city. The funeral will be held on Monday morning from his daughter's home.

WILL SEND 125 MEN IN TO CUT PULPWOOD

Pejepscot Paper Co. to Take Some 5,000 Cords at Martin's Head

Within a short time the Pejepscot Paper Co. will send a large number of men into the woods at Martin's Head, Saint John county, to cut about 5,000 cords of pulp wood, which is the equivalent of nearly 5,000,000 feet of long lumber. The company has not cut any wood on the Martin's Head property for six years, and the opportunities are expected to be favorable to 125 men or more who will be engaged to get out the wood called for by the big contract, which will mean a expenditure of from \$40,000 to \$50,000. It is proposed to have the work of cutting, peeling and piling done by August 31 as the most favorable peeling season will end about that date.

The Pejepscot Company operates large pulp mills in Maine and owns a wood carrying fleet. It holds immense tracts of land in Saint John county, Kings county and elsewhere, the New Brunswick headquarters being at Salmon River village, Saint John county. The company has finished its annual driving operations, and there are about 3,000,000 feet of long lumber and 10,000 cords of four-foot pulp wood, nearly 9,000,000 feet in all, at its mills at Salmon River.

Word has been received here that the Lincoln Pulpwood Co. Ltd., which operates extensively across the bay, in Annapolis county, will send 80 men to the woods early next week.

HYDRO LINES EXTENSION TO GO ON AT ONCE

Electric Commission Today Deals With Havelock and Shediac Plans

The Havelock and Shediac extensions of the Musquash hydro system were discussed at the monthly meeting of the New Brunswick Electric Power Commission this morning and work on these will be pushed along as rapidly as possible. A claim of David Hamm that hydro poles to carry service wires to certain residents of Grand Bay were on his land was not dealt with, as Mr. Hamm did not appear before the commission, although given notice in writing to be at this morning's session.

The chief engineer, S. R. Weston, reported on the extension to Havelock that foremen were now on the ground preparing to run the line from Petitcodiac to Havelock and that poles, wire and line hardware had been purchased.

As to the extension to Shediac, pursuant to the favorable approval of the Government, a report on an inspection made by the chief engineer, was placed before the meeting. It was decided to proceed with the line from Moncton to Shediac by way of Charlevoixville, Lakeburn, Paines, Scoudiac, Chipman's Corner, Shediac Town and Point du Chene. The commission will sit again this afternoon.

MRS. A. S. SAUNDERS DIES AT AGE OF 96

Husband Was Active in Days of Shipbuilding in Saint John

Another of the few remaining ties linking the present with the days of wooden ship building in Saint John, was severed in the death, at an early hour this morning, of Mrs. Annie Sandall Saunders, at her home, 167 Charlotte street. She had attained the age of 96 on May 4. Mrs. Saunders was the widow of Tobias Saunders, who died about 20 years ago. Mr. Saunders was foreman for Brown and Anderson, one of the best known of the ship building firms of St. John, in the days when the industry flourished here.

Mrs. Saunders was wanted to talk interestingly of the days when the Saint John harbor was a forest of masts and of the ship building trade. Time dealt gently with her, leaving not its mark by one grey hair. Of a sunny disposition, she numbered a wide circle of friends. To all she was affectionately known as "Granny." Mrs. Saunders was the daughter of the late John S. and Hannah Anthony, her father being one of the earlier pilots of this port. Surviving are two daughters, Mrs. John R. Rigby and Mrs. James Taylor of Saint John; two sons, S. W. of Chicago, and Leonard T. of New York, and two grand children, Mrs. John Angus MacKay of New York, and Edna Annie Taylor of this city. Mrs. Saunders lived to see five generations.
